Below is the definition of Psychological Observation provided by (b)(6); (b)(7)(C) Chief Psychologist. He will remain on Psychological Observation until tomorrow, where he will be reassessed.

DEFINITION: A Psychological Observation occurs when an inmate who suffers from a mental illness, a serious personality disorder, a medical problem (impairing their mental status), or drug intoxication and/or withdrawal symptoms begins to deteriorate. The inmate is no longer mentally stable and therefore, it is inappropriate for s/he to remain in general population or the Special Housing Unit (SHU). Inmates placed on psychological observation differ from inmates placed on suicide watch as they are not imminently suicidal (e.g., have not expressed self-harm or engaged in self-harming behavior), but rather, due to his/her impairment in mental status or functioning (e.g., not eating, not sleeping, disorganized/unusual thinking, poor self-care), his/her behavior can be unpredictable. Psychological Observation status is intended as a temporary designation to be utilized until such time as the inmate becomes sufficiently stable (e.g., able to function independently in general population) to be returned to his/her housing assignment or transferred to an inpatient psychiatric facility such as a Federal Medical Center.

He has a pending incident report for Self-Mutilation and therefore, he will return to the Special Housing Unit (SHU) and will be celled with inmate (b)(6); (b)(7)(C)
(b)(6); (b)(7)(C)
(b)(6); (b)(7)(C) His case has been highly publicized and he is in SHU because he requested Protective Custody.

Please feel free to contact me at 646-836 (b)(6); (b)(7)(C) to discuss, and thank you for your cooperation.

I visited inmate Epstein in SHU on Thursday. He was getting ready to meet with his attorneys for the day so I had gone to visit him right after the SHU meeting. He had a cell mate at the time with whom I saw him interact with. He did not report any mental health concerns and he denied any suicidal thoughts or intention. He was asking this writer to go to general population and was making requests for various needs he had at the time. He wanted social calls without them being on a speaker phone. He wanted a book he had left in the suicide watch area. His mood was not depressed or anxious. There were no signs of distress. He had planned on meeting with his attorneys to work on his legal situation.

While I will probably reply to this reporter with something like my draft below which doesn't reveal much if anything, nonetheless we want to be sure we understand from you or the institution what if anything may have happened with inmate Epstein. Could you see if the institution can look into this and provide us with what they may know for our internal purposes (not for release to media)? We will reply to media inquiries about Epstein (not the institution) since stories about him are national news (unless we finalize an answer that we could give to the institution to use as well if media ask about this tomorrow).

SUBJECT: Psychological Reconstruction
Inmate Epstein, Jeffrey (76318-054)

Inmate Jeffrey Epstein (76318-054) died by suicide on August 10, 2019, while housed at the Metropolitan Correctional Center (MCC) in New York. The attached psychological reconstruction was completed by (b)(6); (b)(7)(C) National Suicide Prevention Coordinator, (b)(6); (b)(7)(C) Sex Offender Treatment Programs Coordinator, (b)(6); (b)(7)(C) Mental Health Treatment Coordinator and (b)(6); (b)(7)(C) Correctional Services Administrator, Northeast Regional Office. PSYCHOLOGICAL RECONSTRUCTION OF INMATE DEATH

This is an interim report, due to an inability to gather all necessary data. Formal interviews were not conducted as a part of this reconstruction to avoid interference with pending investigations by other Department of Justice components. A copy of the video is normally made by Special Investigative Staff following a significant incident, but there was no such video in this case since the original video was confiscated by the Federal Bureau of Investigation (FBI) prior to the beginning of this reconstruction. The absence of these two sources of information severely limited the ability to establish accurate timelines, confirm subjective reports, establish converging and diverging lines of facts, or discover new areas of inquiry. As a result, information typically gathered, reviewed and consolidated during a reconstruction to support actionable findings and recommendations is limited.

Name:	Jeffrey Epstein
Register Number:	76318-054
Date of Death:	08-10-2019
Prepared by:	(b)(6); (b)(7)(C) National Suicide Prevention Coordinator, Psychology Services Branch, Central Office

BACKGROUND INFORMATION

Mr. Jeffrey Epstein was a 66-year-old, White male who died on August 10, 2019, while housed at the Metropolitan Correctional Complex (MCC), in New York, New York. James C. Wills, former Acting Assistant Director, Reentry Services Division, appointed a team to conduct a psychological reconstruction. The team consisted of (b)(6); (b)(7)(C) National Suicide Prevention Coordinator, Central Office; (b)(6); (b)(7)(C) Sex Offender Treatment Programs Coordinator, Central Office; (b)(6); (b)(7)(C) Mental Health Treatment Coordinator, Central Office; and (b)(6); (b)(7)(C) Correctional Services Administrator, Northeast Regional Office. This reconstruction was established in accordance with Bureau of Prisons' (BOP) Program Statement 5324.08, Suicide Prevention Program.

Social History: Mr. Epstein did not have a Pre-Sentence Report (PSR) available at the time of the reconstruction; therefore, no official information regarding social history was accessible. The following was gathered from publicly available documents. Mr. Epstein was born in 1953 and grew up in a middle-class family in the neighborhood of Sea Gate on Coney Island, Brooklyn, New York, with one brother. After early promotion in two grades, Mr. Epstein graduated from Lafayette High School in 1969, at the age of 16. He attended Cooper Union and New York University but did not graduate from either. Mr. Epstein taught at the Dalton School, a private school on the Upper East Side of Manhattan from September 1974 until he was

dismissed in June 1976 for inadequate development as a teacher. Following that, he held a number of positions in the financial industry to include a position as a limited partner at Bear Stearns until he was dismissed for unknown policy violations in 1981. He also worked as a financial consultant and founded at least two separate companies.

Mr. Epstein had two significant periods of employment. The first of these was his position as a consultant with (b)(6); (b)(7)(C) in the late 1980s. (b)(6); (b)(7)(C) was described as his first mentor. (b)(6); (b)(7)(C) was later convicted and incarcerated for running a large Ponzi scheme. He implicated Mr. Epstein in fraudulently diverting company funds for his own personal use. Years later (b)(6); (b)(7)(C), Mr. Epstein's sole client at J. Epstein and Company, granted him power of attorney over his affairs. Despite also being identified as (b)(6); (b)(7)(C) mentee, Mr. Epstein was again accused of misappropriating funds—more than 46 million dollars. These large sums are believed to be the seed money Mr. Epstein used to establish his considerable fortune. These events are indicative of Mr. Epstein's highly-regarded intelligence and charismatic personality.

Legal History: Mr. Epstein had a history of adult criminal charges and convictions. In June 2008, he entered into a non-prosecution agreement and pleaded guilty to one count Solicitation of Prostitution and one count Procuring a Person Under the Age of 18 for Prostitution in the state of Florida. He was sentenced to 30 months: 18 months of incarceration and 12 months of probation. He was also mandated to register as a sex offender under the National Sex Offender Registration and Notification Act. Mr. Epstein served 13 of his 18-month incarceration and then successfully completed 12 months of probation. It is unclear whether he followed the sex offender registration guidelines in each place he owned a residence.

In regard to pending charges, Mr. Epstein was formally charged with Sex Trafficking Conspiracy in violation of 18 U.S.C. § 371 and Sex Trafficking in violation of 18 U.S.C. § 1591(a), (b) (2), 2 on July 2, 2019. Specifically, he was accused of sexually exploiting and abusing minor females over the course of several years. Charging documents allege Mr. Epstein enticed and recruited minor females to engage in sexual activity. The minor females were reportedly compensated with cash following the sexual encounters and some were encouraged to find other minor females to accompany them to Mr. Epstein's residences in New York or Florida. He pleaded not guilty to these charges and was in pretrial status at the time of his death.

In a 37-page Decision & Order Remanding the Defendant, signed by Judge Richard M. Berman on July 18, 2019, 18 pages were dedicated to detailing the danger Mr. Epstein posed to others and the community. The document also alleged he was a flight risk. As a result, Mr. Epstein's proposed bail package was determined to be inadequate. He was denied pretrial release and held on remand.

Institutional History: On July 6, 2019, Mr. Epstein was arrested at Teterboro Airport in New Jersey upon his return from Paris, France. It is unknown whether he was anticipating this arrest. He was transported to MCC New York and keyed into SENTRY at 9:24 p.m. that evening. Mr. Epstein was placed in a general population housing unit for approximately 22 hours. On July 7, 2019, at approximately 7:20 p.m. he was moved to the Special Housing Unit (SHU) pending reclassification due to the significant increase in media coverage and awareness of his notoriety among the inmate population.

With regard to his adjustment to a correctional setting, Mr. Epstein received one incident report while in BOP custody for Self-Mutilation on July 23, 2019. As of August 15, 2019, the incident report had been expunged though it is unclear why it had been expunged and whether Mr. Epstein knew this. Also, a review of financial transactions associated with Mr. Epstein's prison account revealed one of his attorneys was depositing funds into his cellmate's (inmate Reyes) commissary account for unknown reasons.

HEALTH CARE AND PERSONALITY DESCRIPTION

BOP Electronic Medical Records (BEMR) indicate Mr. Epstein was diagnosed with hyperlipidemia, sleep apnea, hypertension, constipation, prediabetes, neuralgia, and neuritis unspecified. He was prescribed the following mediations: docusate sodium, milk of magnesia, omega 3, methylprednisone, and bisacodyl. Mr. Epstein was also prescribed insulin, and the prescription required him to go to the institution pharmacy for administration of this medication. However, the dates for which it was prescribed have a notation indicating "dose not indicated," thus it does not appear insulin was routinely medically necessary. The rest of the medications prescribed were self-carry. He also had a continuous positive airway pressure (CPAP) machine which is typically used to treat sleep apnea. Mr. Epstein was provided with his personal CPAP machine on July 30, 2019, per BEMR.

In regard to mental health history and treatment, there are no known available records. Any records that may have been maintained relating to Mr. Epstein's incarceration in Florida were not available for review as of the date of this report. With regard to Psychology Data System records in BEMR (PDS-BEMR), (b)(6); (b)(7)(C) Forensic Psychologist at MCC New York completed a routine Intake Screening on July 8, 2019. During this screening, Mr. Epstein denied any history of mental health problems, substance abuse, and treatment. No symptoms of mental illness were observed. He was classified as Mental Health Care Level 1 and was not diagnosed with a mental illness.

Following a consultation with (b)(6); (b)(7)(C) National Suicide Prevention Coordinator on July 8, 2019 (b)(6); (b)(7)(C) Chief Psychologist at MCC New York determined Mr. Epstein should be pre-emptively evaluated for suicide risk upon his return from court. Primary consideration was given to his various risk factors for suicide such as his high profile case and media attention, pending sex offense charges, pre-trial status, and an ongoing court proceeding. Mr. Epstein returned from court on July 8, 2019, after normal business hours. He denied suicidal

thoughts at that time, but due to the potential for other risk factors listed above, the on-call psychologist placed Mr. Epstein on Psychological Observation in one of the suicide watch cells until he could be assessed in person by a BOP psychologist. Psychological Observation is a form of individual monitoring that is less restrictive than Suicide Watch. It is used for inmates who are stabilizing and not yet prepared for placement in general population or restrictive housing. It is often used to transition inmates off of Suicide Watch in order to monitor their transition and safety after an acute suicidal crisis. On July 9, 2019, Mr. Epstein underwent a formal, in-person suicide risk assessment with (b)(6); (b)(7)(C) She determined that, while suicide watch was not warranted at that time, Mr. Epstein should remain on Psychological Observation status out of an abundance of caution. He was removed from Psychological Observation on July 10, 2019.

(b)(7)(A)

(b)(7)(A) He was placed on suicide watch by the Operations Lieutenant at approximately 1:40 a.m. pending a formal in-person suicide risk assessment. (b)(6); (b)(7)(C) Staff Psychologist at MCC New York, assessed Mr. Epstein for risk of suicide later in the morning of July 23, 2019, and determined he should remain on suicide watch. (b)(7)(A)

(b)(7)(A)

Mr. Epstein was removed from suicide watch on July 24, 2019, after 31 hours and 5 minutes. Thereafter, he remained in the suicide watch cell and was placed on Psychological Observation, where he remained housed until July 30, 2019, according to PDS-BEMR records. A discrepancy exists regarding when he was removed from Psychological Observation. His cell assignment, per SENTRY, indicates he was transferred back to the Special Housing Unit (SHU) on July 29, 2019, whereas PDS-BEMR indicates he was removed from Psychological Observation on July 30, 2019, at approximately 8:15 a.m.

Mr. Epstein attended a court hearing on July 31, 2019, and, upon his return, the United States Marshals Service (USMS) provided paperwork to Receiving and Discharge (R&D) staff that noted "suicidal tendencies." (b)(6); (b)(7)(C) was notified on August 1, 2019, about this paperwork. She consulted with (b)(6); (b)(7)(C) and then met with Mr. Epstein to conduct a suicide risk assessment. She determined suicide watch was not warranted at that time.

Mr. Epstein remained classified as a Mental Health Care Level 1 throughout his time at MCC New York. During his contacts with psychologists, Mr. Epstein routinely denied current mental health symptoms to include suicidal ideation, and he did not exhibit symptoms of a serious mental illness. However, there was evidence Mr. Epstein was experiencing challenges

adjusting to his environment and changes in his lifestyle. He reported frequent complaints of difficulty sleeping. He did not have access to his CPAP machine until it was reportedly provided to him on July 30, 2019. Mr. Epstein also reported he was bothered by noise in the SHU. At times, he noted concerns related to his safety in SHU or on a general population housing unit. On two occasions, July 26, 2019, and July 27, 2019, he described himself as a coward and as someone who does not like pain. On July 28, 2019, he told (b)(6); (b)(7)(C) the toilet in his cell would not stop flushing for an extended period of time, and he then took to sitting in the corner with his hands over his ears. Mr. Epstein indicated he was agitated following this incident and was unable to sleep that night.

ANTECEDENT CIRCUMSTANCES

Mr. Epstein entered BOP custody on July 6, 2019, with a history of convictions for sexual offenses and allegations comprised of more serious charges. The current indictment alleged sexual crimes against minors, and he was facing up to 45 years in prison. On July 18, 2019, Mr. Epstein's request for bail and pretrial release was denied.

(b)(7)(A)

(b)(7)(A) After 31 hours and 5 minutes on Suicide Watch, he was then placed on Psychological Observation. On July 30, 2019, Mr. Epstein was removed from Psychological Observation. (b)(6); (b)(7)(C) sent an e-mail reporting Mr. Epstein had been removed from Psychological Observation and needed to be housed with an appropriate cellmate. This e-mail was sent to 71 MCC New York staff and, as of August 13, 2019, only 27 staff members had opened the message.

On August 9, 2019, a federal court unsealed approximately 2,000 pages of documents into the public domain. These included graphic allegations against Mr. Epstein. Included was a book order receipt for titles such as *SM 101: A Realistic Introduction*; *SlaveCraft: Roadmaps for Erotic Servitude*; and *Training with Miss Abernathy: A Workbook for Erotic Slaves and Their Owners*. Additional high profile public figures were also named in the released documents. The documents were part of a defamation lawsuit filed by Virginia Roberts Giuffre, a woman who alleged Mr. Epstein had victimized her, against a British socialite, Ghislaine Maxwell, who was Mr. Epstein's ex-girlfriend, associate, and alleged to have assisted with his criminal activities. According to staff report, Mr. Epstein was afforded telephone calls on two different days although it is unknown whether they were legal or social calls. No recording of the calls exist and it is not known with whom he was speaking. One occurred on or around July 16, 2019, and the other on August 9, 2019. Legal calls are not monitored, and would not be recorded. A social call would be recorded; given the limited information known about Mr. Epstein, knowledge of the content of any social calls would have been crucial to helping staff work with him.

Following his final telephone call on the evening of August 9, 2019, Mr. Epstein was moved into his SHU cell. He was single-celled at that time because his cellmate (Efrain Reyes #85993-054)

did not return from court. The need for a cellmate was communicated between Day Watch (DW) and Evening Watch (EW) shifts in the SHU, but no cellmate was placed with him by the EW staff. According to a memorandum from Senior Officer Specialist (b)(6); (b)(7)(C) SHU staff were informed at approximately 1:50 p.m. that Mr. Epstein's cellmat would likely not return from court. Furthermore, Officer (b)(6); (b)(7)(C) noted Mr. Epstein would need a cellmate upon arrival from his attorney visit.

A review of the 30-minute rounds forms indicate unit rounds were completed for the entire MW shift on August 10, 2019. However, a memorandum from Lieutenant (b)(6); (b)(7)(C) indicates Officer (b)(6); (b)(7)(C) and Material Handler Supervisor (b)(6); (b)(7)(C) made a statement after Mr. Epstein's death that they did not complete proper 30-minute rounds at 3:00 a.m. or 5:00 a.m.

DESCRIPTION OF SCENE

A detailed description of the scene was unavailable because the officers who discovered Mr. Epstein did not write memorandums and could not be interviewed. According to the Report of Incident, on August 10, 2019, at approximately 6:33 a.m., while serving the breakfast meal in the SHU, Range 9 South, Mr. Epstein was found unresponsive in his cell. Staff reportedly called for medical assistance, activated the (b)(7)(E) and began life-saving measures. Arriving staff stated they brought an automated external defibrillator (AED) and stretcher. Cardiopulmonary resuscitation (CPR) reportedly continued while the AED was placed on Mr. Epstein. The AED reportedly indicated no shock advised and CPR was continued. Mr. Epstein was escorted to Health Services at approximately 6:39 a.m., and Emergency Medical Services (EMS) arrived at 6:43 a.m. He was transported to the local hospital at approximately 7:10 a.m. Mr. Epstein was pronounced deceased at 7:36 am. It was not possible to confirm this timeline without viewing video footage.

CONCLUSIONS/RECOMMENDATIONS

A general appreciation of risk factors for suicide specific to sex offenders is necessary when reviewing Mr. Epstein's death. These factors, as well as more general risk factors for suicide, were likely present. There are several common factors that increase risk for suicide in individuals with a history of a sexual offense. These include stigma due to the nature of sexually-based crimes (both within society and the prison system), a disruption of the ability to utilize sex as a coping mechanism (which can lead to increased levels of distress and negative affect), and grief about loss experienced in regards to arrest. This grief may be secondary to the loss of former lifestyle, loss of physical items or collections related to sexual offenses, and/or the loss of perceived relationships with victims. Other factors that may increase risk for suicide among individuals accused of a sex offense include safety concerns, potentially long sentences, and lack of skills necessary to navigate social relationships in prison.

Mr. Epstein was a high-profile, pretrial detainee awaiting trial on sex trafficking offenses. He had been a successful, wealthy businessman with a number of high-profile acquaintances that he accumulated through a combination of charisma, charm, and intelligence. Despite his many associates, he had limited significant or deep interpersonal ties. Although Mr. Epstein appeared

to cultivate a large social and professional network, he was estranged from his only brother. Indeed, his identity appeared to be based on his wealth, power, and association with other high-profile individuals. (b)(7)(A) (b)(7)(A) (b)(7)(A) In the weeks before his death, he made statements that he was "a coward" and was having difficulty adapting to his diminished circumstances. He also frequently referenced poor sleep and an inability to tolerate the noise of prison. On the day before his death, a number of documents in his case were unsealed, further eroding his previously-enjoyed elevated status and potentially implicating some of his associates. The lack of significant interpersonal connections, a complete loss of his status in both the community and among associates, and the idea of potentially spending his life in prison were likely factors contributing to Mr. Epstein's suicide.

The following recommendations concern institution operations:

1. Single Celling: (b)(5) (b)(5)

2. Rounds: 30-minute rounds are required by P5500.14, Correctional Services Procedures Manual.

3. Cellmate Assignments: When Mr. Epstein was placed in SHU on July 7, 2019, (b)(7)(A) (b)(6); (b)(7)(C) (b)(7)(A) In an effort to treat Mr. Epstein the same as other inmates, a statement repeated by multiple staff, Executive Staff may have inadvertently overlooked the need to consider unique risk factors associated with individuals who have been charged with and convicted of a sex offense. On July 25, 2019, (b)(6); (b)(7)(C) sent an e-mail to Shirley Skipper-Scott, Associate Warden explaining a consultation between (b)(6); (b)(7)(C) and (b)(6); (b)(7)(C) National Suicide Prevention Coordinator. In the e-mail, (b)(6); (b)(7)(C)

reviewed the consult and recommendation from the Psychology Services Branch, Central Office that Mr. Epstein be housed with another inmate who had also been accused of committing a sex offense. There is no evidence this information was considered beyond this e-mail, and Mr. Epstein was never housed with another inmate charged or convicted of a sexual offense.

(b)(5)

4. Documentation Accuracy: (b)(7)(A)

(b)(7)(A)

(b)(7)(A) It is critical that all descriptions of the incident accurately reflect objective evidence.

(b)(7)(A)

(b)(5); (b)(7)(A) Although the incident report was later expunged, inmates frequently experience significant stress when they contemplate the potential consequences associated with findings of guilt.

(b)(6); (b)(7)(C) entered a Psychology Services Intake Screening into PDS-BEMR on July 8, 2010. The document has three typographical errors. She selected the No Sexual Offense Convictions check box when, in fact, Mr. Epstein was previously convicted of Solicitation of Prostitution and Procuring a Person Under the Age of 18 for Prostitution. Second, Mr. Epstein was erroneously identified as a Black male in this document. Finally, there is one instance where he was mistakenly referred to as (b)(6); (b)(7)(C)

(b)(6); (b)(7)(C) completed a Risk of Sexual Abusiveness document on July 8, 2019. She marked "History of prior prison sexual predation" in the affirmative. This is not accurate.

(b)(6); (b)(7)(C) Mid-Level Practitioner, completed a History and Physical on July 9, 2019. An Intake Screening should have been conducted within 24 hours of his entry into Bureau custody which was on July 6, 2019, according to P6031.04, Patient Care.

Officer (b)(6); (b)(7)(C) was responsible for observing Mr. Epstein and documenting his behavior while on suicide watch on July 23, 2019. Officer (b)(6); (b)(7)(C) mistakenly used a Suicide Watch Log Book intended for inmate companion documentation between 1:40 a.m. and 6:00 a.m. on July 23, 2019, when he should have been using the Staff Suicide Watch Log Book. (b)(6); (b)(7)(C) Drug Treatment Specialist, reportedly noticed this error and subsequently hand copied all of Officer (b)(6); (b)(7)(C) entries from 1:40 a.m. to 6:00 a.m. into a Staff Suicide Watch Log Book. She then initialed these entries, and this makes it appear as if she was the one conducting the watch. This information was discovered and conveyed in an e-mail from Ms. Charisma Edge, Associate Warden to (b)(6); (b)(7)(C) with a carbon copy to Warden N'Diaye on August 12, 2019. Of note, (b)(6); (b)(7)(C) did not make an entry explaining why she was making the log book changes. Additionally, (b)(6); (b)(7)(C) then wrote entries for 6:15, 6:30, 6:45 and 7:00 a.m. in the Staff Suicide Watch Log Book. These were not a part of the original entries made by Officer (b)(6); (b)(7)(C) nor was (b)(6); (b)(7)(C) assigned to work the Suicide Watch post. Due to the inability to interview staff at this time, it is unknown why (b)(6); (b)(7)(C) attempted to correct Officer (b)(6); (b)(7)(C) error, or made any of the subsequent log entries. It is recommended that if a staff member makes an entry error (e.g., writes in the incorrect suicide watch log book), the staff member should describe the error in the correct log book, to include indicating when they became aware of the error. The staff member should then notify the Chief Psychologist.

A review of Special Housing Unit Records (BP-A0292) revealed a number of incomplete entries. This document is used to monitor provision and receipt of basic services such as recreation, medical rounds, showers, meal consumption, etc. The Officer in Charge signature is missing on 10 occasions and a medical provider's signature is missing in seven instances. There are six instances in which it is not clear if Mr. Epstein ate his meal. There are nine instances in which it is not clear if Mr. Epstein took a shower. There are ten instances in which it is not clear if Mr. Epstein was offered recreation. P5500.15, Correctional Services Manual requires accurate and complete information on the BP-A0292.

A review of Psychology Observation Log Books revealed significant discrepancies from the approved Psychological Observation Procedural Memorandum, dated April 15, 2019. A Correctional Officer is required to complete hourly rounds and sign the log book; 179

out of 183 round signatures were missing. The lieutenant is required to sign the log book one time per shift and signatures were missing in 10 of 23 instances. A Physician Assistant is required to sign one time per shift and 16 of 16 instances were missing. (b)(5)

(b)(5)

5. Telephone Calls: In a PDS-BEMR note written by (b)(6); (b)(7)(C) on July 16, 2019, she was informed by an unnamed staff member that a lieutenant facilitated two telephone calls for Mr. Epstein. It is unknown when and to whom these calls were placed and no evidence that they took place on a monitored telephone.

   According to a memorandum from Unit Manager (b)(6); (b)(7)(C) on August 10, 2019, Mr. Epstein terminated his legal visit early on August 9, 2019, in order to place a telephone call to his family. (b)(6); (b)(7)(C) (who was the Institutional Duty Officer that week) escorted Mr. Epstein to SHU around 7:00 p.m. that evening and he was placed in the shower area on G tier. While there, he was provided the telephone to make a call. Since Mr. Epstein reportedly did not have his PAC or PIN number, which is required to use the inmate telephone system, the Unit Manager placed the call, dialing a number that reportedly began with area code 347. Mr. Epstein told (b)(6); (b)(7)(C) he was calling his mother who, according to public records, has been deceased since 2004.

   (b)(5)

6. Direct Observation: Mr. Epstein was on suicide watch from July 23, 2019, until July 24, 2019. While on suicide watch on July 23, 2019, Mr. Epstein attended an attorney visit from approximately 12:40 p.m. until 7:15 p.m. During this time, he was without "direct, continuous observation" by a dedicated BOP staff member as required by P5324.08. While on Psychological Observation, he attended attorney visits on July 24, 2019, for 11.25 hours; on July 25, 2019, for 11.25 hours; on July 26, 2019, for 9.25 hours; on July 27, 2019, for 11.33 hours; on July 28, 2019, for 10.5 hours; and on July 29, 2019, for 8 hours. On July 30, 2019, Psychology Observation was terminated. During these visits, continuous observation by a dedicated BOP staff member was not maintained as required by MCC New York's Procedural Memorandum for Psychological Observation.

7. Follow-Up: Mr. Epstein arrived at MCC New York on Saturday, July 6, 2019. While conducting the 10:00 p.m. institution count that evening (b)(6); (b)(7)(C) Facilities Assistant reported she observed Mr. Epstein in his cell. In an e-mail she sent to Drs. (b)(6); (b)(7)(C) and (b)(6); (b)(7)(C) and Lieutenant (b)(6); (b)(7)(C) later that evening, she described Mr. Epstein as "distraught, sad and a little confused." She said she then asked Mr. Epstein if he was

okay, and he reportedly said he was. However, (b)(6); (b)(7)(C) noted in her e-mail she was not convinced of this, adding, "He seems dazed and withdrawn." She went on to say, "So just to be on the safe side and prevent any suicidal thoughts can someone from Psychology come and talk with him." Despite the fact that Lieutenant (b)(6); (b)(7)(C) opened the e-mail there is no evidence that he contacted the on-call psychologist as is required by P5324.08, Suicide Prevention Program. Additionally, if (b)(6); (b)(7)(C) was concerned about suicide risk, P5324.08, Suicide Prevention Program, requires her to maintain direct, continuous observation of Mr. Epstein. When (b)(6); (b)(7)(C) opened the e-mail the following Monday morning, Mr. Epstein was evaluated by (b)(6); (b)(7)(C) at approximately 9:30 a.m.

Mr. Epstein was denied bail on Thursday, July 18, 2019. This was a significant disappointment for Mr. Epstein and likely challenged his ability and willingness to adapt to incarceration. Given the potential impact of the judge's decision, a psychologist should have assessed Mr. Epstein's mental status upon his return to the institution. The BOP developed a SENTRY assignment of PSY ALERT for purposes such as this. Specifically PSY ALERT is used "to ensure, if movement occurs, that all staff consider the special psychological and management-related risks associated with the inmate." Furthermore, P5324.07, SENTRY Psychology Alert Function states, "When a decision to move [any PSY ALERT] inmate occurs, any special psychological needs of the inmate are reviewed and considered by Psychology Services staff [and] any safety and security concerns are highlighted for non-Psychology Services staff." (b)(5) (b)(5) (b)(5) Both of these groups of inmates are susceptible to exaggerated or unrealistic fears about correctional settings and experience stress associated during movement and periods of transition (e.g., cell/unit changes, movement to and from court, institutional movement, and release of information through the media).

Mr. Epstein was reportedly in court on July 31, 2019. It is unknown what time he departed or returned to MCC New York because this information was not entered in SENTRY. Regardless, upon his return, the United States Marshals Service (USMS) provided R&D staff with a Prisoner Custody Alert Notice regarding Mr. Epstein. The notice indicated Mr. Epstein had "MTL Mental Concerns Suicidal Tendencies." The USMS requested R&D staff sign the form, and they then departed with the signed copy. On August 1, 2019, at 8:46 a.m. (b)(6); (b)(7)(C) sent (b)(6); (b)(7)(C) an e-mail reporting she had just become aware of the above information. In the absence of additional information about this notation, this should have been considered a referral to Psychology Services about a potentially suicidal inmate and procedures should have been followed as outlined in P5324.08, Suicide Prevention Program. Specifically, when a staff member becomes aware an inmate may be thinking about suicide during normal working hours, that staff member must contact Psychology Services and maintain the inmate under direct,

continuous observation until he is placed on Suicide Watch or seen by a psychologist. There is no evidence Mr. Epstein was monitored under these conditions from the time he returned from court until he was seen by (b)(6); (b)(7)(C) for a suicide risk assessment on August 1, 2019, at approximately 1:30 p.m.

8. Inmate Accountability and Assignment Accuracy: According to a SENTRY quarters roster generated on August 10, 2019, at 12:51 a.m., there were three inmates assigned to Mr. Epstein's SHU cell, Z04-206LAD, including him, at the time of his death. However, his SHU cell was only a double occupancy cell. Inmate (b)(6); (b)(7)(C) inmate (b)(6); (b)(7)(C) and Mr. Epstein were all assigned to the same cell. On August 13, 2019, at 12:06 p.m. and 12:08 p.m., a quarters history roster was generated for inmate (b)(6); (b)(7)(C) and (b)(6); (b)(7)(C) respectively. Inmate (b)(6); (b)(7)(C) cell assignment was Z04-206LAD from August 5, 2019, until August 11, 2019, when he was moved to cell Z04-212UAD. Inmate (b)(6); (b)(7)(C) cell assignment was Z04-206UAD from August 1, 2019, until August 11, 2019, when he was moved to cell Z04-207LAD. A quarters history roster was generated for Mr. Epstein on August 13, 2019, at 9:07 a.m. His cell assignment was Z04-206LAD from July 29, 2019, until August 10, 2019.

On Monday, August 12, 2019, photographs of nametags on SHU cell doors and SHU locator forms were sent to the Correctional Service Department in the Northeast Region. The SHU locator form is dated August 9, 2019. It shows inmate (b)(6); (b)(7)(C) in cell 207L (SENTRY states he was moved to this cell on August 11, 2019), inmate (b)(6); (b)(7)(C) in cell 212U (SENTRY states he was moved to this cell on August 11, 2019), inmate Epstein in cell 220L (SENTRY never shows him in this cell) along with inmate Reyes (#85993-054). The locator shows inmate (b)(6); (b)(7)(C) and inmate (b)(6); (b)(7)(C) in cell 206. The photo sheets show the cell being 220 with inmates Epstein and Reyes' identification cards on the door. Inmate Reyes, Efrain, Reg. No. 85993-054 was in cell Z06-220U from August 5, 2019 to August 9, 2019.

MCC New York has four suicide watch cells and each is for single occupancy use. The suicide watch cells are located in Health Services. Each cell is abbreviated with the unit code H01 in SENTRY followed by the four-digit cell number. The doors are identified by a painted number from one to four. Two reviews were conducted. The first revealed Mr. Epstein was in H01-001L according to SENTRY but the Suicide Watch Log Books indicate he was in cell 4. A second review was conducted on August 13, 2019, while there were four inmates on in these cells. SENTRY showed two inmates assigned to HO1-001L, one assigned to H01-002L, and the fourth inmate assigned to a general population housing unit. Through physical observation of the dedicated suicide watch cells there were four H01 cells, however a review of the BOPWARE Inmate Housing Format, only shows three cells.

Inmate movement and assignments are not accurately reflected in SENTRY as required by P5500.14, Correctional Service Procedures Manual.

9. Attorney Log Books: Four log books were not secured following Mr. Epstein's death. Specifically, three Attorney Log Books located in the Attorney Visiting and Front Lobby areas and an Inmate Search Log Book located in the Attorney Visiting area were not secured. All four books were still in use at the outset of the reconstruction and after the reconstruction team advised staff to secure them. P5324.08 states, "In the event of a suicide, institution staff, particularly Correctional Services staff, and other law enforcement personnel, will handle the site with the same level of protection as any crime scene in which a death has occurred." This policy further states, "All possible evidence and documentation will be preserved to provide data and support for subsequent investigators doing a psychological reconstruction."

   Further, a review of the attorney log books identified many errors and signify a systemic concern. For example, there were two concurrently open attorney log books in the Attorney Visiting area. Further, the different purposes of the two attorney log books, one in the Attorney Visit area and one in the Front Lobby, could not be explained. BOP staff were unable to articulate a system of control for the log books, and during the reconstruction, some of the log books could not be accounted for. Within the log books, entries were made out of chronological order, attorneys did not consistently sign in and out, significant information was illegible or missing, columns were not consistently labeled, log book opening and closing dates were inconsistent, and the cover had been torn off of several books. At the current time, these log books are not functioning as an adequate system of control and monitoring.

10. Automatic External Defibrillators: A review of available AEDs in the institution revealed that the list used for accountability and inspection purposes was inaccurate and incomplete.

11. Post Orders & SHU Training: SHU Post Orders Sign-In Sheets were reviewed for the 3rd Quarter, spanning June 9, 2019, to September 7, 2019. Officer (b)(6); (b)(7)(C) failed to sign post orders for SHU #3 post.

    Quarterly SHU Training Sign-In Sheets were reviewed. The 2019 3rd Quarter SHU Training was conducted on June 6, 2019. Three staff assigned to the 3rd Quarter SHU Roster in SHU did not attend or receive the SHU Training: Officer (b)(6); (b)(7)(C) Officer (b)(6); (b)(7)(C) and Officer (b)(6); (b)(7)(C)

12. Staffing: The Drug Abuse Program Coordinator positon at MCC New York was abolished during Phase I of the staff realignment during fiscal year 2018. Re-establishing

the Drug Abuse Program Coordinator position would provide the institution with an additional supervisory psychologist to provide critical clinical services.

Staffing in the Correctional Services department is relevant to the reconstruction. However, the details about this topic are provided in an After Action Review completed separately from this report.

13. Sex Offense Risk Factors: A broad understanding of risk factors associated with sex offenders, by staff at MCC New York, did not appear to be present in all staff but was vital to his adjustment and safety in prison. (b)(5)

Inmate Epstein #76318-054 was removed from Suicide Watch and stepped down to Psychological Observation. He was just escorted to Health Services for a follow-up assessment/evaluation. Once completed, he will be escorted to Attorney Conference to meet with his Attorney.

He has a pending incident report for Self-Mutilation and therefore, he will return to the Special Housing Unit (SHU) and will be celled with inmate (b)(6); (b)(7)(C)

We need to reconstruct as best we can inmate Epstein's 292 record for the week prior to his death (Monday, August 5, 2019 through Friday, August 9, 2019). Please make this your number one priority and e-mail me the results when you are done. This is a time critical task.

Good afternoon,

Mr. Epstein Reg. 76318-054 arrived here at MCC New York on 7/6/2019 at 9:24 PM, he was placed in Special housing unit until we can better evaluate him and find suitable housing for him. Today he was arraigned in court and upon his arrival will be seen by Psychology and they will conduct a suicide risk assessment with this inmate when he returns from court. Should he return from court and psychology is gone for the day, he is to go on PSYCHOLOGICAL OBSERVATION unless, of course, he reports he is suicidal. In that case, he is to go on Suicide Watch.

There has been a few media inquires via phone calls however no information given. Media was staged around the back side of our building and in front of the court house which is less then 100 yards apart from each other.

If you should have any additional questions and or concerns please feel free to contact me.

Thank you

I just got off the phone with Central Office and they are recommending we conduct a suicide risk assessment with this inmate when he returns from court. Should he return from court and psychology is gone for the day, he is to go on PSYCHOLOGICAL OBSERVATION unless, of course, he reports he is suicidal. In that case, he is to go on Suicide Watch. Inmate Epstein will likely be receiving bad news in court today and has multiple risk factors for suicidality as identified by BOP statistics. Let's be proactive.

"This writer consulted with(b)(6); (b)(7)(C) Central Office, regarding inmate Epstein. Inmate Epstein has various risk factors for suicidality including a high profile case with media attention, sex offense charges, pre-trial status, and a court proceeding today which could potentially be giving him bad news regarding his legal situation. As such, when inmate Epstein returns from court, R&D staff as well as Lieutenant's have been informed to immediately notify the psychology department. If he returns after duty hours, the aforementioned staff were instructed to notify the on-call psychologist and to place inmate Epstein on a watch status until psychology can conduct a thorough suicide risk assessment."

Below is the definition of Psychological Observation provided by (b)(6); (b)(7)(C) Chief Psychologist. He will remain on Psychological Observation until tomorrow, where he will be reassessed.

DEFINITION: A Psychological Observation occurs when an inmate who suffers from a mental illness, a serious personality disorder, a medical problem (impairing their mental status), or drug intoxication and/or withdrawal symptoms begins to deteriorate. The inmate is no longer mentally stable and therefore, it is inappropriate for s/he to remain in general population or the Special Housing Unit (SHU). Inmates placed on psychological observation differ from inmates placed on suicide watch as they are not imminently suicidal (e.g., have not expressed self-harm or engaged in self-harming behavior), but rather, due to his/her impairment in mental status or functioning (e.g., not eating, not sleeping, disorganized/unusual thinking, poor self-care), his/her behavior can be unpredictable. Psychological Observation status is intended as a temporary designation to be utilized until such time as the inmate becomes sufficiently stable (e.g., able to function independently in general population) to be returned to his/her housing assignment or transferred to an inpatient psychiatric facility such as a Federal Medical Center.

He has a pending incident report for Self-Mutilation and therefore, he will return to the Special Housing Unit (SHU) and will be celled with inmate (b)(6); (b)(7)(C)

This is the response I am sending the RD. Are you ok with this?

Below is the definition of Psychological Observation provided by (b)(6); (b)(7)(C) Chief Psychologist. He will remain on Psychological Observation until tomorrow, where he will be reassessed.

DEFINITION: A Psychological Observation occurs when an inmate who suffers from a mental illness, a serious personality disorder, a medical problem (impairing their mental status), or drug intoxication and/or withdrawal symptoms begins to deteriorate. The inmate is no longer mentally stable and therefore, it is inappropriate for s/he to remain in general population or the Special Housing Unit (SHU). Inmates placed on psychological observation differ from inmates placed on suicide watch as they are not imminently suicidal (e.g., have not expressed self-harm or engaged in self-harming behavior), but rather, due to his/her impairment in mental status or functioning (e.g., not eating, not sleeping, disorganized/unusual thinking, poor self-care), his/her behavior can be unpredictable. Psychological Observation status is intended as a temporary designation to be utilized until such time as the inmate becomes sufficiently stable (e.g., able to function independently in general population) to be returned to his/her housing assignment or transferred to an inpatient psychiatric facility such as a Federal Medical Center.

He has a pending incident report for Self-Mutilation and therefore, he will return to the Special Housing Unit (SHU) and will be celled with inmate (b)(6); (b)(7)(C)

(b)(6); (b)(7)(C) His case has been highly publicized and he is in SHU because he requested Protective Custody.

Here is the final version I'm sending to (b)(6); (b)(7)(C) You're welcome to send this to him or other reporters as well who are asking for an update.

We considered using new language but we realized the language from our original response last week (repeated below mostly) covers everything being asked - medical status and conditions of confinement (which we interpret as including where he's housed within an institution).

I visited inmate Epstein in SHU on Thursday. He was getting ready to meet with his attorneys for the day so I had gone to visit him right after the SHU meeting. He had a cell mate at the time with whom I saw him interact with. He did not report any mental health concerns and he denied any suicidal thoughts or intention. He was asking this writer to go to general population and was making requests for various needs he had at the time. He wanted social calls without them being on a speaker phone. He wanted a book he had left in the suicide watch area. His mood was not depressed or anxious. There were no signs of distress. He had planned on meeting with his attorneys to work on his legal situation.

On 7/23/19, inmate Epstein was charged with code 228 (Tattooing or Self-Mutilation). These infractions were assigned incident report number 3282555.

Background Information

According to a Suicide Risk Assessment dated 7/09/19 by (b)(6); (b)(7)(C) "Inmate Epstein denied any history of mental health treatment, either on an inpatient or outpatient basis. Inmate Epstein denied any treatment in the past or present with psychotropic medication. He also denied any acute mental health symptoms at this time."

According to a Suicide Risk Assessment dated 7/09/19 by (b)(6); (b)(7)(C) "Inmate Epstein denied any past or present suicidal ideation, intention or plan. He denied ever engaging in any suicide attempts or self-injurious behavior in the past."

(b)(7)(A)

Clinical Interview and Mental Status Exam

(b)(7)(A)

Current Mental Status: He exhibited a neutral mood with a full range of affect. His speech was logical and coherent, with no loosening of associations or tangential, circumstantial or irrelevant speech. Auditory and visual hallucinations were denied, and delusions were not elicited. He did not engage in any bizarre or inappropriate behavior. Clinical Impression

According to his last Diagnostic and Care Level Formulation Note dated 7/09/19 by (b)(6); (b)(7)(C) "No Diagnosis, No Dx - Current."

Findings

The determination of whether an inmate is competent to proceed with the disciplinary process is based on a clinical assessment of the inmate's (1) ability to understand the nature of the proceedings, and (2) their ability to assist in their own defense. Depending on the outcome of the assessment, one of three findings can be made: (1) the inmate is COMPETENT to proceed with the disciplinary process; (2) the inmate is NOT PRESENTLY COMPETENT but could be restored to competence with treatment; or (3) the inmate is NOT COMPETENT and is unlikely to become competent.

Recommendations Regarding Sanctions

In the case of inmate Epstein, after a review of available psychological and psychiatric records as well as information pertaining to the offense conduct, it is determined that this inmate is:

(X) COMPETENT to proceed with the disciplinary process.

(b)(6); (b)(7)(C) this looks like an outstanding report. Its unbelieveable all you report without the benefit of interviews or video, and it raises significant concerns. After you get feedback, please send me a final draft. Please mark it as draft so I can give to the director as a draft. She is considering asking you to label this as an interim report in light of the limited ability to do interviews. But she can decide once she sees this report. Thanks again.

Below is the definition of Psychological Observation provided by (b)(6); (b)(7)(C) Chief Psychologist. He will remain on Psychological Observation until tomorrow, where he will be reassessed.

DEFINITION: A Psychological Observation occurs when an inmate who suffers from a mental illness, a serious personality disorder, a medical problem (impairing their mental status), or drug intoxication and/or withdrawal symptoms begins to deteriorate. The inmate is no longer mentally stable and therefore, it is inappropriate for s/he to remain in general population or the Special Housing Unit (SHU). Inmates placed on psychological observation differ from inmates placed on suicide watch as they are not imminently suicidal (e.g., have not expressed self-harm or engaged in self-harming behavior), but rather, due to his/her impairment in mental status or functioning (e.g., not eating, not sleeping, disorganized/unusual thinking, poor self-care), his/her behavior can be unpredictable. Psychological Observation status is intended as a temporary designation to be utilized until such time as the inmate becomes sufficiently stable (e.g., able to function independently in general population) to be returned to his/her housing assignment or transferred to an inpatient psychiatric facility such as a Federal Medical Center.

He has a pending incident report for Self-Mutilation and therefore, he will return to the Special Housing Unit (SHU) and will be celled with inmate (b)(6); (b)(7)(C) (b)(6); (b)(7)(C) (b)(6); (b)(7)(C) His case has been highly publicized and he is in SHU because he requested Protective Custody.

This is the response I am sending the RD. Are you ok with this?

Below is the definition of Psychological Observation provided by (b)(6); (b)(7)(C) Chief Psychologist. He will remain on Psychological Observation until tomorrow, where he will be reassessed.

DEFINITION: A Psychological Observation occurs when an inmate who suffers from a mental illness, a serious personality disorder, a medical problem (impairing their mental status), or drug intoxication and/or withdrawal symptoms begins to deteriorate. The inmate is no longer mentally stable and therefore, it is inappropriate for s/he to remain in general population or the Special Housing Unit (SHU). Inmates placed on psychological observation differ from inmates placed on suicide watch as they are not imminently suicidal (e.g., have not expressed self-harm or engaged in self-harming behavior), but rather, due to his/her impairment in mental status or functioning (e.g., not eating, not sleeping, disorganized/unusual thinking, poor self-care), his/her behavior can be unpredictable. Psychological Observation status is intended as a temporary designation to be utilized until such time as the inmate becomes sufficiently stable (e.g., able to function independently in general population) to be returned to his/her housing assignment or transferred to an inpatient psychiatric facility such as a Federal Medical Center.

He has a pending incident report for Self-Mutilation and therefore, he will return to the Special Housing Unit (SHU) and will be celled with inmate (b)(6); (b)(7)(C)
(b)(6); (b)(7)(C)
(b)(6); (b)(7)(C) His case has been highly publicized and he is in SHU because he requested Protective Custody.

Good morning (b)(6); (b)(7)(C)

My apologies, but I have been away from my desk in meetings the past three days. I received your voicemails regarding the status of Mr. Epstein's personal effects. Presently, while the external investigation continues, any personal property attributable to Mr. Epstein is being held as evidence. Once the outside investigators release the property, we hope to be able to return it to his family as expeditiously as possible.

If you have any further questions, please email me and we can try to arrange a mutually convenient time to chat further.

Thank you,

I just got off the phone with Central Office and they are recommending we conduct a suicide risk assessment with this inmate when he returns from court. Should he return from court and psychology is gone for the day, he is to go on PSYCHOLOGICAL OBSERVATION unless, of course, he reports he is suicidal. In that case, he is to go on Suicide Watch. Inmate Epstein will likely be receiving bad news in court today and has multiple risk factors for suicidality as identified by BOP statistics. Let's be proactive.

"This writer consulted with (b)(6); (b)(7)(C) Central Office, regarding inmate Epstein. Inmate Epstein has various risk factors for suicidality including a high profile case with media attention, sex offense charges, pre-trial status, and a court proceeding today which could potentially be giving him bad news regarding his legal situation. As such, when inmate Epstein returns from court, R&D staff as well as Lieutenant's have been informed to immediately notify the psychology department. If he returns after duty hours, the aforementioned staff were instructed to notify the on-call psychologist and to place inmate Epstein on a watch status until psychology can conduct a thorough suicide risk assessment."

Thank you,

I just got off the phone with Central Office and they are recommending we conduct a suicide risk assessment with this inmate when he returns from court. Should he return from court and psychology is gone for the day, he is to go on PSYCHOLOGICAL OBSERVATION unless, of course, he reports he is suicidal. In that case, he is to go on Suicide Watch. Inmate Epstein will likely be receiving bad news in court today and has multiple risk factors for suicidality as identified by BOP statistics. Let's be proactive.

"This writer consulted with(b)(6); (b)(7)(C)entral Office, regarding inmate Epstein. Inmate Epstein has various risk factors for suicidality including a high profile case with media attention, sex offense charges, pre-trial status, and a court proceeding today which could potentially be giving him bad news regarding his legal situation. As such, when inmate Epstein returns from court, R&D staff as well as Lieutenant's have been informed to immediately notify the psychology department. If he returns after duty hours, the aforementioned staff were instructed to notify the on-call psychologist and to place inmate Epstein on a watch status until psychology can conduct a thorough suicide risk assessment."

Good afternoon,

Mr. Epstein Reg. 76318-054 arrived here at MCC New York on 7/6/2019 at 9:24 PM, he was placed in Special housing unit until we can better evaluate him and find suitable housing for him. Today he was arraigned in court and upon his arrival will be seen by Psychology and they will conduct a suicide risk assessment with this inmate when he returns from court. Should he return from court and psychology is gone for the day, he is to go on PSYCHOLOGICAL OBSERVATION unless, of course, he reports he is suicidal. In that case, he is to go on Suicide Watch.

There has been a few media inquires via phone calls however no information given. Media was staged around the back side of our building and in front of the court house which is less then 100 yards apart from each other.

If you should have any additional questions and or concerns please feel free to contact me.

Thank you

I attached 2 copies of Epstein SRO reviews:

1. Epstein_(b)(6); (b)(7)(C)_76318-054_SRO_20190710-20190723.pdf (confined in SHU 7/10/2019 - 7/23/2019), and

Because the first confinement, Epstein was held only 2 days in SHU (7/7/2019 - 7/8/2019), NYM did not review Epstein.

Thanks,

He does not appear to be an immediate danger to self. He denied thoughts of hurting others and he agreed to tell staff if he has these thoughts.

Clinical Impression

According to his last Diagnostic and Care Level Formulation Note dated 7/09/19 by (b)(6); (b)(7)(C) "No Diagnosis, No Dx - Current."

Findings

The determination of whether an inmate is competent to proceed with the disciplinary process is based on a clinical assessment of the inmate's (1) ability to understand the nature of the proceedings, and (2) their ability to assist in their own defense. Depending on the outcome of the assessment, one of three findings can be made: (1) the inmate is COMPETENT to proceed with the disciplinary process; (2) the inmate is NOT PRESENTLY COMPETENT but could be restored to competence with treatment; or (3) the inmate is NOT COMPETENT and is unlikely to become competent.

Recommendations Regarding Sanctions

In the case of inmate Epstein, after a review of available psychological and psychiatric records as well as information pertaining to the offense conduct, it is determined that this inmate is:

(X) COMPETENT to proceed with the disciplinary process.
( ) NOT PRESENTLY COMPETENT, but could become competent with treatment; it is recommended that the inmate for an updated competency assessment in 30 days.
( ) NOT COMPETENT and not likely to become competent.

Below is the definition of Psychological Observation provided by (b)(6); (b)(7)(C) Chief Psychologist. He will remain on Psychological Observation until tomorrow, where he will be reassessed.

DEFINITION: A Psychological Observation occurs when an inmate who suffers from a mental illness, a serious personality disorder, a medical problem (impairing their mental status), or drug intoxication and/or withdrawal symptoms begins to deteriorate. The inmate is no longer mentally stable and therefore, it is inappropriate for s/he to remain in general population or the Special Housing Unit (SHU). Inmates placed on psychological observation differ from inmates placed on suicide watch as they are not imminently suicidal (e.g., have not expressed self-harm or engaged in self-harming behavior), but rather, due to his/her impairment in mental status or functioning (e.g., not eating, not sleeping, disorganized/unusual thinking, poor self-care), his/her behavior can be unpredictable. Psychological Observation status is intended as a temporary designation to be utilized until such time as the inmate becomes sufficiently stable (e.g., able to function independently in general population) to be returned to his/her housing assignment or transferred to an inpatient psychiatric facility such as a Federal Medical Center.

He has a pending incident report for Self-Mutilation and therefore, he will return to the Special Housing Unit (SHU) and will be celled with inmate (b)(6); (b)(7)(C)
(b)(6); (b)(7)(C)

(b)(6); (b)(7)(C)
(b)(6); (b)(7)(C) His case has been highly publicized and he is in SHU because he requested Protective Custody.

I just got off the phone with Central Office and they are recommending we conduct a suicide risk assessment with this inmate when he returns from court. Should he return from court and psychology is gone for the day, he is to go on PSYCHOLOGICAL OBSERVATION unless, of course, he reports he is suicidal. In that case, he is to go on Suicide Watch. Inmate Epstein will likely be receiving bad news in court today and has multiple risk factors for suicidality as identified by BOP statistics. Let's be proactive.

"This writer consulted with (b)(6); (b)(7)(C) Central Office, regarding inmate Epstein. Inmate Epstein has various risk factors for suicidality including a high profile case with media attention, sex offense charges, pre-trial status, and a court proceeding today which could potentially be giving him bad news regarding his legal situation. As such, when inmate Epstein returns from court, R&D staff as well as Lieutenant's have been informed to immediately notify the psychology department. If he returns after duty hours, the aforementioned staff were instructed to notify the on-call psychologist and to place inmate Epstein on a watch status until psychology can conduct a thorough suicide risk assessment."

Thank you, (b)(6); (b)(7)(C)

As you are probably aware inmate Epstein was found dead in his SHU cell in NYM this past Saturday morning. We need to reconstruct as best we can inmate Epstein's 292 record for the week prior to his death (Monday, August 5, 2019 through Friday, August 9, 2019). Please make this your number one priority and e-mail me the results when you are done. This is a time critical task.

Thanks.

I just got off the phone with Central Office and they are recommending we conduct a suicide risk assessment with this inmate when he returns from court. Should he return from court and psychology is gone for the day, he is to go on PSYCHOLOGICAL OBSERVATION unless, of course, he reports he is suicidal. In that case, he is to go on Suicide Watch. Inmate Epstein will likely be receiving bad news in court today and has multiple risk factors for suicidality as identified by BOP statistics. Let's be proactive.

"This writer consulted with (b)(6); (b)(7)(C) Central Office, regarding inmate Epstein. Inmate Epstein has various risk factors for suicidality including a high profile case with media attention, sex offense charges, pre-trial status, and a court proceeding today which could potentially be giving him bad news regarding his legal situation. As such, when inmate Epstein returns from court, R&D staff as well as Lieutenant's have been informed to immediately notify the psychology department. If he returns after duty hours, the aforementioned staff were instructed to notify the on-call psychologist and to place inmate Epstein on a watch status until psychology can conduct a thorough suicide risk assessment."

Good afternoon,

Mr. Epstein Reg. 76318-054 arrived here at MCC New York on 7/6/2019 at 9:24 PM, he was placed in Special housing unit until we can better evaluate him and find suitable housing for him. Today he was arraigned in court and upon his arrival will be seen by Psychology and they will conduct a suicide risk assessment with this inmate when he returns from court. Should he return from court and psychology is gone for the day, he is to go on PSYCHOLOGICAL OBSERVATION unless, of course, he reports he is suicidal. In that case, he is to go on Suicide Watch.

There has been a few media inquires via phone calls however no information given. Media was staged around the back side of our building and in front of the court house which is less then 100 yards apart from each other.

If you should have any additional questions and or concerns please feel free to contact me.

Thank you

As you are probably aware inmate Epstein was found dead in his SHU cell in NYM this past Saturday morning. We need to reconstruct as best we can inmate Epstein's 292 record for the week prior to his death (Monday, August 5, 2019 through Friday, August 9, 2019). Please make this your number one priority and e-mail me the results when you are done. This is a time critical task.

Thanks.

Because the first confinement, Epstein was held only 2 days in SHU (7/7/2019 - 7/8/2019), NYM did not review Epstein.

As you are probably aware inmate Epstein was found dead in his SHU cell in NYM this past Saturday morning. We need to reconstruct as best we can inmate Epstein's 292 record for the week prior to his death (Monday, August 5, 2019 through Friday, August 9, 2019). Please make this your number one priority and e-mail me the results when you are done. This is a time critical task.

Thanks.

(b)(6); (b)(7)(C) I made two edits/clarifications below on 7/29 first part, and 8/9 regarding the psych alert. Feel free to call me if you have any questions.

In terms of releasing the info, I don't have any concerns per se, however, this is all subject to an ongoing investigation. Normally, I would never release such information without first ensuring that the investigative body (OIG/FBI) do not have any concerns that its release may interfere with their investigation. Of course, you may have already done that, but in any event that is between you and them and not my business.

On July 23d, Epstein was placed on suicide watch and received medical evaluation. Epstein received daily psychological evaluations while on suicide watch.

On July 29th after daily interaction with Epstein, and according to established procedures, MCC-New York Psychology Services Department determined he no longer warranted placement on suicide watch. Epstein was returned to the Special Housing Unit (SHU) with a requirement that he have a cellmate. He was with same cellmate from that date until August 9th. In addition, the SHU confinement includes frequent head counts as well as 30 minute checks.

On August 9th at about 8:00 a.m., Epstein's cellmate was taken out of the institution for a Court appearance. That inmate was eventually released from custody by the Court and did not return to the institution. On August 9th, Epstein was in a legal visit with his lawyers all day until 6:45

p.m. Epstein returned to cell with no cellmate even though Epstein was on PSYCH Alert as well as a requirement that he have a cellmate. No cellmate was assigned to his cell on August 9th.

On August 10th at about 12:00 a.m., while in his cell, Epstein acknowledged a Correction Officer performing a routine check. After midnight, it appears that not all of the checks required to be performed were actually done.

On August 10th at approximately 6:33 a.m., Staff serving breakfast meal found Epstein unresponsive in his cell. Staff called for assistance and began CPR. When EMS arrived at the institution, he was transported to hospital where he was pronounced dead at 7:36am.

I attached 2 copies of Epstein SRO reviews:

1. Epstein (b)(6); (b)(7)(C) 76318-054_SRO_20190710-20190723.pdf (confined in SHU 7/10/2019 - 7/23/2019), and

Because the first confinement, Epstein was held only 2 days in SHU (7/7/2019 - 7/8/2019), NYM did not review Epstein.

I attached Epstein 292 forms from 7/7-2019 to 8/10/2019. During this periods, Epstein was moved in and out from SHU 3 times.
I looked into his SHU history records and filled SHU administration data into 292 history reports.

As you are probably aware inmate Epstein was found dead in his SHU cell in NYM this past Saturday morning. We need to reconstruct as best we can inmate Epstein's 292 record for the week prior to his death (Monday, August 5, 2019 through Friday, August 9, 2019). Please make this your number one priority and e-mail me the results when you are done. This is a time critical task.

Thanks.

In terms of releasing the info, I don't have any concerns per se, however, this is all subject to an ongoing investigation. Normally, I would never release such information without first ensuring that the investigative body (OIG/FBI) do not have any concerns that its release may interfere with their investigation. On July 23d, Epstein was placed on suicide watch and received medical evaluation. Epstein received daily psychological evaluations while on suicide watch.

On July 29th after daily interaction with Epstein, and according to established procedures, MCC-New York Psychology Services Department determined he no longer warranted placement on suicide watch. Epstein was returned to the Special Housing Unit (SHU) with a requirement that he have a cellmate. He was with same cellmate from that date until August 9th. In addition, the SHU confinement includes frequent head counts as well as 30 minute checks.

On August 9th at about 8:00 a.m., Epstein's cellmate was taken out of the institution for a Court appearance. That inmate was eventually released from custody by the Court and did not return to the institution. On August 9th, Epstein was in a legal visit with his lawyers all day until 6:45

p.m. Epstein returned to cell with no cellmate even though Epstein was on PSYCH Alert as well as a requirement that he have a cellmate. No cellmate was assigned to his cell on August 9th.

On August 10th at about 12:00 a.m., while in his cell, Epstein acknowledged a Correction Officer performing a routine check. After midnight, it appears that not all of the checks required to be performed were actually done.

On August 10th at approximately 6:33 a.m., Staff serving breakfast meal found Epstein unresponsive in his cell. Staff called for assistance and began CPR. When EMS arrived at the institution, he was transported to hospital where he was pronounced dead at 7:36am.

Hello, I'm working on a story about morale at MCC in Manhattan in the wake of charges against (b)(6); (b)(7)(C) I've spoken to an AFGE union official and (b)(6); (b)(7)(C) defense attorney. The story will run over the weekend so I'd appreciate a response by COB today.

The thrust of the story is that morale has plummeted at the facility in the wake of the falsification of documents charges. Morale was already bad because of staffing issues. The story will also note that the facility itself is in very bad shape and that, according to people I spoke to, there has not been a hiring surge or any major reforms in the wake of Jeffrey Epstein's suicide.

(b)(6); (b)(7)(C) is talking with BOP's Acting Director now, and Budget Staff has been directed to ask BOP the following questions regarding Jeffrey Epstein with immediate turnaround requested. **Please provide responses to all of the following questions by 4:00 pm today:**

1. What are the Actual Authorized and Actual On-Board employee numbers for MCC New York?
2. What are the Actual Authorized and Actual On-Board Correctional Officer numbers for MCC New York?
3. How many Correctional Officers were absent for any reason (did not show for work) on Friday 8/09 at MCC New York? How many Correctional Officers were absent for any reason on Saturday 8/10?
    a. Can this be broken down for the overnight shift between Friday and Saturday?
4. To what extent was MCC New York utilizing recruitment and retention bonuses?
5. Did MCC New York request additional Correctional Officer positions from BOP, and if so, were they provided?
6. Of the two correctional officers patrolling that unit, how many were Correctional Officers in the traditional sense (0007 series)? Was either of the employees an "augmented" staffperson?
7. Does MCC New York generally use augmentation or overtime to address staffing shortages?
8. At MCC New York, are correctional officers who perform overtime generally performing voluntary overtime, or are they generally performing mandated overtime?
9. Provide the "bid sheet" for overtime for Friday night 8/09 at MCC New York.
10. Provide report of MCC New York inmates by week for the previous five years.
11. We believe that MCC New York had 19 vacant positions and was recruiting 41 candidates. Please confirm whether this is accurate.

Please provide as much information as is available by 4:00pm; we understand this is a very short turnaround. Please let me know if you would like to discuss.

(b)(6); (b)(7)(C)

On July 23d, Epstein was placed on suicide watch and received medical evaluation. Epstein received daily psychological evaluations while on suicide watch.

On July 29th after daily interaction with Epstein, and according to established procedures, MCC-New York Psychology Services Department determined he no longer warranted placement on suicide watch. Epstein was returned to the Special Housing Unit (SHU) with a requirement that he have a cellmate. He was with same cellmate from that date until August 9th. In addition, the SHU confinement includes frequent head counts as well as 30 minute checks.

On August 9th at about 8:00 a.m., Epstein's cellmate was taken out of the institution for a Court appearance. That inmate was eventually released from custody by the Court and did not return to the institution. On August 9th, Epstein was in a legal visit with his lawyers all day until 6:45

p.m. Epstein returned to cell with no cellmate even though Epstein was on PSYCH Alert as well as a requirement that he have a cellmate. No cellmate was assigned to his cell on August 9th.

On August 10th at about 12:00 a.m., while in his cell, Epstein acknowledged a Correction Officer performing a routine check. After midnight, it appears that not all of the checks required to be performed were actually done.

On August 10th at approximately 6:33 a.m., Staff serving breakfast meal found Epstein unresponsive in his cell. Staff called for assistance and began CPR. When EMS arrived at the institution, he was transported to hospital where he was pronounced dead at 7:36am.

On July 23d, Epstein was placed on suicide watch and received medical evaluation. Epstein received daily psychological evaluations while on suicide watch.

On July 29th Epstein was removed from suicide watch by Psychology Services Department at MCC-New York after daily interaction with him and according to established procedures. Epstein was returned to the Special Housing Unit (SHU) with a requirement that he have a cellmate. He was with same cellmate from that date until August 9th. In addition, the SHU confinement includes frequent head counts as well as 30 minute checks.

On August 9th at about 8:00 a.m., Epstein's cellmate was taken out of the institution for a Court appearance. That inmate was eventually released from custody by the Court and did not return to the institution. On August 9th, Epstein was in a legal visit with his lawyers all day until 6:45 p.m. Epstein returned to cell with no cellmate even though Epstein was on PSYCH Alert which included a requirement that he have a cellmate. No cellmate was assigned to his cell on August 9th.

On August 10th at about 12:00 a.m., while in his cell, Epstein acknowledged a Correction Officer performing a routine check. After midnight, it appears that not all of the checks required to be performed were actually done.

On August 10th at approximately 6:33 a.m., Staff serving breakfast meal found Epstein unresponsive in his cell. Staff called for assistance and began CPR. When EMS arrived at the institution, he was transported to hospital where he was pronounced dead at 7:36am.

(b)(6); (b)(7)(C) as discussed, several options are below. Please note that we should discuss timing of all this. I will need to ensure staff are notified first, and I should let my Executive Staff know so they are not taken off guard as they will no doubt get a lot of questions from their staff and other wardens. Also note that the Warden just called Ray and told him the US Attorney is meeting with him at 10 am tomorrow. So this probably should be some time after that interview.

Question from Fox News:
Hi there can you confirm whether case manage (b)(6); (b)(7)(C) is still working with SHU inmates at MCC or has he been transferred to a different caseload , unit or facility after Jeffrey Epstein death? Also can you confirm the status of Assistant Warden Shirley Skipper Scott?

In terms of releasing the info, I don't have any concerns per se, however, this is all subject to an ongoing investigation. Normally, I would never release such information without first ensuring that the investigative body (OIG/FBI) do not have any concerns that its release may interfere with their investigation. Of course, you may have already done that, but in any event that is between you and them and not my business.

On July 23d, Epstein was placed on suicide watch and received medical evaluation. Epstein received daily psychological evaluations while on suicide watch.

On July 29th after daily interaction with Epstein, and according to established procedures, MCC-New York Psychology Services Department determined he no longer warranted placement on suicide watch. Epstein was returned to the Special Housing Unit (SHU) with a requirement that he have a cellmate. He was with same cellmate from that date until August 9th. In addition, the SHU confinement includes frequent head counts as well as 30 minute checks.

On August 9th at about 8:00 a.m., Epstein's cellmate was taken out of the institution for a Court appearance. That inmate was eventually released from custody by the Court and did not return to the institution. On August 9th, Epstein was in a legal visit with his lawyers all day until 6:45

p.m. Epstein returned to cell with no cellmate even though Epstein was on PSYCH Alert as well as a requirement that he have a cellmate. No cellmate was assigned to his cell on August 9th.

On August 10th at about 12:00 a.m., while in his cell, Epstein acknowledged a Correction Officer performing a routine check. After midnight, it appears that not all of the checks required to be performed were actually done.

On August 10th at approximately 6:33 a.m., Staff serving breakfast meal found Epstein unresponsive in his cell. Staff called for assistance and began CPR. When EMS arrived at the institution, he was transported to hospital where he was pronounced dead at 7:36am.

Thanks. This is helpful. We can talk tomorrow about the timing.

It will also be helpful to get some information about staffing at MCC I've seen additional press reports trying to link the staffing shortages, overtime and this incident.

Thanks,

(b)(6); (b)(7)(C) as discussed, several options are below. Please note that we should discuss timing of all this. I will need to ensure staff are notified first, and I should let my Executive Staff know so they are not taken off guard as they will no doubt get a lot of questions from their staff and other wardens. Also note that the Warden just called Ray and told him the US Attorney is meeting with him at 10 am tomorrow. So this probably should be some time after that interview.

7/7/19: Warden idenfied him as high profile and moved him to Special Housing Unit due to his concerns for his personal safety in general population.
7/8/19: Upon return from Court, he was moved to Psychology Observation for evaluation by Psych Svc Staff. This is NOT suicide watch and the system notes reflect suicide watch not warranted. He was under 24 hour observation during this time to assess his readiness to move to SHU.

Question from Fox News:
Hi there can you confirm whether case manage (b)(6); (b)(7)(C) still working with SHU inmates at MCC or has he been transferred to a different caseload , unit or facility after Jeffrey Epstein death? Also can you confirm the status of Assistant Warden Shirley Skipper Scott?

Proposed Response:

Here are 3 recent answers we sent to media asking questions related to Epstein:

We decline to comment as the Epstein case is currently under investigation by the Federal Bureau of Investigation and Department of Justice's Office of Inspector General.

The Epstein case is currently under investigation by the Federal Bureau of Investigation and the Department of Justice's Office of Inspector General. As such, we cannot answer questions relating to the investigation.

We decline to comment as the Epstein case is currently under investigation by the Federal Bureau of Investigation and Department of Justice's Office of Inspector General. We can, however, point to previous published reports indicating the New York Medical Examiner's Office has ruled the death a suicide.

This appears consistent with PDS. The one edit I suggest based on PDS is to delete the text I colored red and replace it with the green. PDS reflects he was placed in Psyc Observation that night after he returned from court and was assessed the next morning.

(b)(6); (b)(7)(C) here is a timeline of his arrival at the MCC:

7/6/19: Arrived at NYM (Saturday) in the Receiving and Discharge area. Moved by staff to general population (apparently USMS did not indicate that he was a high profile inmate and staff were unaware that he was coming so no pkans had been established).
7/7/19: Warden idenfied him as high profile and moved him to Special Housing Unit due to his concerns for his personal safety in general population.
7/8/19: Upon return from court of Psych Svc Staff on Monday, he was moved to Psychology Observation for evaluation by Psych Svc Staff. This is NOT suicide watch and the system notes reflect suicide watch not warranted. He was under 24 hour observation during this time to assess his readiness to move to SHU.
7/10/19: Returned to SHU with cell mate. Remains until 7/23.

Suicide Watch Institutional Supplement

Good morning all. I apologize I was not in attendance mainline today, but Central Office called me just before mainline commenced to request some documents and information regarding inmate Epstein. I was speaking on the phone wit (b)(6); (b)(7)(C) whom you both met during the suicide reconstruction.

(b)(6); (b)(7)(C) informed me not to do an update to the institutional supplement for suicide watch as it is not required by policy or suggested. He stated Psychology should only be doing an institutional supplement for Psychological Observation as there is no specific policy for it. I had recently updated the Psychological Observation Procedural Memorandum which I will attach here. I have not updated the SW supplement for several years as it was noted that policy did not require or suggest one any longer.

Also (b)(6); (b)(7)(C) is requesting a copy of the post orders (general orders) for suicide watch. He also asked for the sign-in sheets for the suicide post orders for staff who were sitting on Epstein during his suicide watch. Do we have a copy of this in the Lieutenant's office as well as the post orders? If there are not specific post orders, I think we should get a copy of the quarterly post orders to demonstrate that the officers who sat on inmate Epstein signed for the quarter.

Thanks! (b)(6); (b)(7)(C)

(b)(6); (b)(7)(C) as discussed, several options are below. Please note that we should discuss timing of all this. I will need to ensure staff are notified first, and I should let my Executive Staff know so they are not taken off guard as they will no doubt get a lot of questions from their staff and other wardens. Also note that the Warden just called Ray and told him the US Attorney is meeting with him at 10 am tomorrow. So this probably should be some time after that interview.

AW Skipper-Scott,

Inmate Epstein seems psychologically stable.

He complained that his right arm was numb and hanging earlier. Nurse (b)(6); (b)(7)(C) saw him.

He again said his right arm still feels somewhat numb and he said he cannot make a fist with that hand. He also said he has numbness on his neck. I informed Nurse (b)(6); (b)(7)(C)

He stated the toilet in his cell was running for 45 minutes last night and he could not take the noise. He is going to try the toilet before going to legal today and if it does not shut off, he will be moved to another cell.

Thanks,

Thanks. This is helpful. We can talk tomorrow about the timing.

It will also be helpful to get some information about staffing at MCC I've seen additional press reports trying to link the staffing shortages, overtime and this incident.

Thanks,

(b)(6); (b)(7)(C) as discussed, several options are below. Please note that we should discuss timing of all this. I will need to ensure staff are notified first, and I should let my Executive Staff know so they are not taken off guard as they will no doubt get a lot of questions from their staff and other wardens. Also note that the Warden just called Ray and told him the US Attorney is meeting with him at 10 am tomorrow. So

this probably should be some time after that interview.

Also, the two officers that we are putting on AL, one is scheduled off today already and the other didn't show (so far). So the urgency of putting them on AL is less if they are not there. Ray is checking on the schedule of the others.

7/6/19: Arrived at NYM (Saturday) in the Receiving and Discharge area. Moved by staff to general population (apparently USMS did not indicate that he was a high profile inmate and staff were unaware that he was coming so no plans had been established).
7/7/19: Warden idenfied him as high profile and moved him to Special Housing Unit due to his concerns for his personal safety in general population.
7/8/19: Upon return from Court, he was moved to Psychology Observation for evaluation by Psych Svc Staff. This is NOT suicide watch and the system notes reflect suicide watch not warranted. He was under 24 hour observation during this time to assess his readiness to move to SHU.
7/10/19: Returned to SHU with cell mate. Remains until 7/23.

AW Skipper-Scott,

Inmate Epstein seems psychologically stable.

He complained that his right arm was numb and hanging earlier. Nurs(b)(6); (b)(7)(C) saw him.

He again said his right arm still feels somewhat numb and he said he cannot make a fist with that hand. He also said he has numbness on his neck. I informed Nurse(b)(6); (b)(7)(C)

He stated the toilet in his cell was running for 45 minutes last night and he could not take the noise. He is going to try the toilet before going to legal today and if it does not shut off, he will be moved to another cell.

Thanks,

(b)(6); (b)(7)(C)

(b)(6); (b)(7)(C) as discussed, several options are below. Please note that we should discuss timing of all this. I will need to ensure staff are notified first, and I should let my Executive Staff know so they are not taken off guard as they will no doubt get a lot of questions from their staff and other wardens. Also note that the Warden just called Ray and told him the US Attorney is meeting with him at 10 am tomorrow. So this probably should be some time after that interview.

This appears consistent with PDS. The one edit I suggest based on PDS is to delete the text I colored red and replace it with the green. PDS reflects he was placed in Psyc Observation that night after he returned from court and was assessed the next morning.

(b)(6); (b)(7)(C) here is a timeline of his arrival at the MCC:

7/6/19: Arrived at NYM (Saturday) in the Receiving and Discharge area. Moved by staff to general population (apparently USMS did not indicate that he was a high profile inmate and staff were unaware that he was coming so no pkans had been established).
7/7/19: Warden idenfied him as high profile and moved him to Special Housing Unit due to his concerns for his personal safety in general population.
7/8/19: Upon return from court of Psych Svc Staff on Monday, he was moved to Psychology Observation for evaluation by Psych Svc Staff. This is NOT suicide watch and the system notes reflect suicide watch not warranted. He was under 24 hour observation during this time to assess his readiness to move to SHU.
7/10/19: Returned to SHU with cell mate. Remains until 7/23.

Thanks. This is helpful. We can talk tomorrow about the timing.

It will also be helpful to get some information about staffing at MCC I've seen additional press reports trying to link the staffing shortages, overtime and this incident.

(b)(6); (b)(7)(C), as discussed, several options are below. Please note that we should discuss timing of all this. I will need to ensure staff are notified first, and I should let my Executive Staff know so they are not taken off guard as they will no doubt get a lot of questions from their staff and other wardens. Also note that the Warden just called Ray and told him the US Attorney is meeting with him at 10 am tomorrow. So this probably should be some time after that interview.

Thanks. This is helpful. We can talk tomorrow about the timing.

It will also be helpful to get some information about staffing at MCC I've seen additional press reports trying to link the staffing shortages, overtime and this incident.

Thanks,

(b)(6); (b)(7)(C) as discussed, several options are below. Please note that we should discuss timing of all this. I will need to ensure staff are notified first, and I should let my Executive Staff know so they are not taken off guard as they will no doubt get a lot of questions from their staff and other wardens. Also note that the Warden just called Ray and told him the US Attorney is meeting with him at 10 am tomorrow. So this probably should be some time after that interview.

Inmate Message Below

(b)(6); (b)(7)(C) I just spoke with an inmate who came out of the SHU last night. His room was directly next to Epstein's and (b)(6); (b)(7)(C) was anxious to describe the night of his neighbor's death. Jeffrey Epstein definitely killed himself. Any conspiracy theories to the contrary are ridiculous (b)(6); (b)(7)(C) actually heard Jeffrey tearing up his sheet before committing suicide. I asked (b)(6); (b)(7)(C) if the SHU had been extraordinarily noisy and uncivilized as a prelude to Jeffrey killing himself. He responded in the negative - effectively refuting my theory that Epstein couldn't take the animals in the SHU and chose to end it as a result. I no longer believe that rooming with Jeffrey would have saved him. He wanted to kill himself and seized the opportunity when it was available (when his bunky moved out). Such is life - or death in this case.

Friday is my home confinement date and clearly, the staff hasn't done its job although the law specifically states that the BOP is required to let all inmates with the appropriate risks and needs (which I am) serve 10% of their sentences at home. I know this isn't part of your domain. But anything you could do to get me out of here when the law says I should be released (two days from now) would be most appreciated.

He also complained that he is in Attorney Conference from about 8 AM to about 8 PM each day and he said yesterday he only received one meal, a sandwich at about 4:15 PM. He said he should be getting lunch and dinner.
Also additional information on the toilet that reportedly flushed for 45 minutes. He stated to avoid the toilet from doing that again because he stated he found it so aversive and disorienting, he has been urinating in a cup. I already sent an e-mail to (b)(6); (b)(7)(C) about the toilet.

AW Skipper-Scott,

Inmate Epstein seems psychologically stable.

He complained that his right arm was numb and hanging earlier. Nurse (b)(6); (b)(7)(C) w him.

He again said his right arm still feels somewhat numb and he said he cannot make a fist with that hand. He also said he has numbness on his neck. I informed Nurse (b)(6); (b)(7)(C)

He stated the toilet in his cell was running for 45 minutes last night and he could not take the noise. He is going to try the toilet before going to legal today and if it does not shut off, he will be moved to another cell.

Thanks,

Thanks. This is helpful. We can talk tomorrow about the timing.

It will also be helpful to get some information about staffing at MCC I've seen additional press reports trying to link the staffing shortages, overtime and this incident.

Thanks,

(b)(6); (b)(7)(C) s discussed, several options are below. Please note that we should discuss timing of all this. I will need to ensure staff are notified first, and I should let my Executive Staff know so they are not taken off guard as they will no doubt get a lot of questions from their staff and other wardens. Also note that the Warden just called Ray and told him the US Attorney is meeting with him at 10 am tomorrow. So this probably should be some time after that interview.

I have a private investigator we have appointed under CJA coming to visit our client from out of town next week Monday and Tuesday. Please review for accuracy before I send to (b)(6); (b)(7)(C)

(b)(6); (b)(7)(C) here is a timeline of his arrival at the MCC:

7/6/19: Arrived at NYM (Saturday) in the Receiving and Discharge area. Moved by staff to general population (apparently USMS did not indicate that he was a high profile inmate and staff were unaware that he was coming so no pkans had been established).
7/7/19: Warden idenfied him as high profile and moved him to Special Housing Unit due to his concerns for his personal safety in general population.
7/8/19: Upon return of Psych Svc Staff on Monday, he was moved to Psychology Observation for evaluation by Psych Svc Staff. This is NOT suicide watch and the system notes reflect suicide watch not warranted. He was under 24 hour observation during this time to assess his readiness to move to SHU.
7/10/19: Returned to SHU with cell mate. Remains until 7/23.

Please review for accuracy before I send to (b)(6); (b)(7)(C)

(b)(6); (b)(7)(C) here is a timeline of his arrival at the MCC:

7/6/19: Arrived at NYM (Saturday) in the Receiving and Discharge area. Moved by staff to general population (apparently USMS did not indicate that he was a high profile inmate and staff were unaware that he was coming so no pkans had been established).
7/7/19: Warden idenfied him as high profile and moved him to Special Housing Unit due to his concerns for his personal safety in general population.
7/8/19: Upon return of Psych Svc Staff on Monday, he was moved to Psychology Observation for evaluation by Psych Svc Staff. This is NOT suicide watch and the system notes reflect suicide watch not warranted. He was under 24 hour observation during this time to assess his readiness to move to SHU.
7/10/19: Returned to SHU with cell mate. Remains until 7/23.

He also complained that he is in Attorney Conference from about 8 AM to about 8 PM each day and he said yesterday he only received one meal, a sandwich at about 4:15 PM. He said he should be getting lunch and dinner.
Also additional information on the toilet that reportedly flushed for 45 minutes. He stated to avoid the toilet from doing that again because he stated he found it so aversive and disorienting, he has been urinating in a cup. I already sent an e-mail to (b)(6); (b)(7)(C) about the toilet.

AW Skipper-Scott,

Inmate Epstein seems psychologically stable.

He complained that his right arm was numb and hanging earlier. Nurse ((b)(6); (b)(7)(C) saw him.

He again said his right arm still feels somewhat numb and he said he cannot make a fist with that hand. He also said he has numbness on his neck. I informed Nurse (b)(6); (b)(7)(C)

He stated the toilet in his cell was running for 45 minutes last night and he could not take the noise. He is going to try the toilet before going to legal today and if it does not shut off, he will be moved to another cell.

Thanks,

Thanks. This is helpful. We can talk tomorrow about the timing.

It will also be helpful to get some information about staffing at MCC I've seen additional press reports trying to link the staffing shortages, overtime and this incident.

Thanks,

(b)(6); (b)(7)(C) as discussed, several options are below. Please note that we should discuss timing of all this. I will need to ensure staff are notified first, and I should let my Executive Staff know so they are not taken off guard as they will no doubt get a lot of questions from their staff and other wardens. Also note that the Warden just called Ray and told him the US Attorney is meeting with him at 10 am tomorrow. So this probably should be some time after that interview.

(b)(6); (b)(7)(C)

Here is an updated version for the moment

Reporter:

(b)(6); (b)(7)(C) NY DAILY NEWS

Questions & Proposed Responses:

Hello, I'm working on a story about morale at MCC in Manhattan in the wake of charges against (b)(6); (b)(7)(C) I've spoken to an AFGE union official and (b)(6); (b)(7)(C) defense attorney. The story will run over the weekend so I'd appreciate a response by COB today.

The thrust of the story is that morale has plummeted at the facility in the wake of the falsification of documents charges. Morale was already bad because of staffing issues. The story will also note that the facility itself is in very bad shape and that, according to people I spoke to, there has not been a hiring surge or any major reforms in the wake of Jeffrey Epstein's suicide.

(1) Has any money been allocated for improving MCC as a facility since Epstein's death?

(b)(5)

(2) Has there been a hiring surge since Epstein's suicide?

(b)(5)

(3) Any changes in BOP policies following Epstein's suicide?

(b)(5) (b)(6); (b)(7)(C)

(4) Is it correct tha (b)(6); (b)(7)(C) were responsible for roughly 50 to 70 inmates the night of the suicide?

(b)(5)

(5) What is the attrition rate for BOP correctional officers? What's the average length of time a person stays in the job? (NYC-area would be best if it's available.)

(b)(5) (b)(6);

(6) Can you share anything supervisors at MCC have told the rank and file in the wake of these charges? What's the message to overworked, disgruntled correctional officers?

(b)(6); (b)(7)(C) here is a timeline of his arrival at the MCC:

7/6/19: Arrived at NYM (Saturday) in the Receiving and Discharge area. Moved by staff to general population (apparently USMS did not indicate that he was a high profile inmate and staff were unaware that he was coming so no pkans had been established).
7/7/19: Warden idenfied him as high profile and moved him to Special Housing Unit due to his concerns for his personal safety in general population.
7/8/19: Upon return of Psych Svc Staff on Monday, he was moved to Psychology Observation for evaluation by Psych Svc Staff. This is NOT suicide watch and the system notes reflect suicide watch not warranted. He was under 24 hour observation during this time to assess his readiness to move to SHU.
7/10/19: Returned to SHU with cell mate. Remains until 7/23.

This appears consistent with PDS. The one edit I suggest based on PDS is to delete the text I colored red and replace it with the green. PDS reflects he was placed in Psyc Observation that night after he returned from court and was assessed the next morning.

Hello, I'm working on a story about morale at MCC in Manhattan in the wake of charges agains (b)(6); (b)(7)(C) . I've spoken to an AFGE union official and

The thrust of the story is that morale has plummeted at the facility in the wake of the falsification of documents charges. Morale was already bad because of staffing issues.

(1) Has any money been allocated for improving MCC as a facility since Epstein's death?
(b)(5)

(2) Has there been a hiring surge since Epstein's suicide?
(b)(5) (b)(6);

(3) Any changes in BOP policies following Epstein's suicide?
(b)(5)

(4) Is it correct that (b)(6); (b)(7)(C) were responsible for roughly 50 to 70 inmates the night of the suicide?
(b)(5)

(5) What is the attrition rate for BOP correctional officers? What's the average length of time a person stays in the job? (NYC-area would be best if it's available.)

(6) Can you share anything supervisors at MCC have told the rank and file in the wake of these charges? What's the message to overworked, disgruntled correctional office

AW Skipper-Scott,

I saw him before his Legal visit. He seems stable and is now at his Legal visit. I'll be coming in tomorrow before his Legal visit to see him again.

He complained about being dehydrated because he stated he cannot drink enough water because of limited bathroom breaks in Legal since he stated he sees his Attorney for about 12 hours.

He also complained about having to go back up to SHU. Being anxious about it and not being able to sleep there because of the noise of inmates banging and screaming at night.

AW Skipper-Scott,

Inmate Epstein seems psychologically stable.

He complained that his right arm was numb and hanging earlier. Nurse (b)(6); (b)(7)(C) saw him.

He again said his right arm still feels somewhat numb and he said he cannot make a fist with that hand. He also said he has numbness on his neck. I informed Nurse (b)(6); (b)(7)(C)

He stated the toilet in his cell was running for 45 minutes last night and he could not take the noise. He is going to try the toilet before going to legal today and if it does not shut off, he will be moved to another cell.

Thanks,

Also note that the Warden just called Ray and told him the US Attorney is meeting with him at 10 am tomorrow. So this probably should be some time after that interview.

Thanks. This is helpful. We can talk tomorrow about the timing.

It will also be helpful to get some information about staffing at MCC I've seen additional press reports trying to link the staffing shortages, overtime and this incident.

Thanks,

(b)(6); (b)(7)(C) as discussed, several options are below. Please note that we should discuss timing of all this. I will need to ensure staff are notified first, and I should let my Executive Staff know so they are not taken off guard as they will no doubt get a lot of questions from their staff and other wardens. Also note that the Warden just called Ray and told him the US Attorney is meeting with him at 10 am tomorrow. So this probably should be some time after that interview.

(b)(6); (b)(7)(C) ere is a timeline of his arrival at the MCC:

7/6/19: Arrived at NYM (Saturday) in the Receiving and Discharge area. Moved by staff to general population (apparently USMS did not indicate that he was a high profile inmate and staff were unaware that he was coming so no plans had been established).
7/7/19: Warden idenfied him as high profile and moved him to Special Housing Unit due to his concerns for his personal safety in general population.
7/8/19: Upon return from Court, he was moved to Psychology Observation for evaluation by Psych Svc Staff. This is NOT suicide watch and the system notes reflect suicide watch not warranted. He was under 24 hour observation during this time to assess his readiness to move to SHU.
7/10/19: Returned to SHU with cell mate. Remains until 7/23.

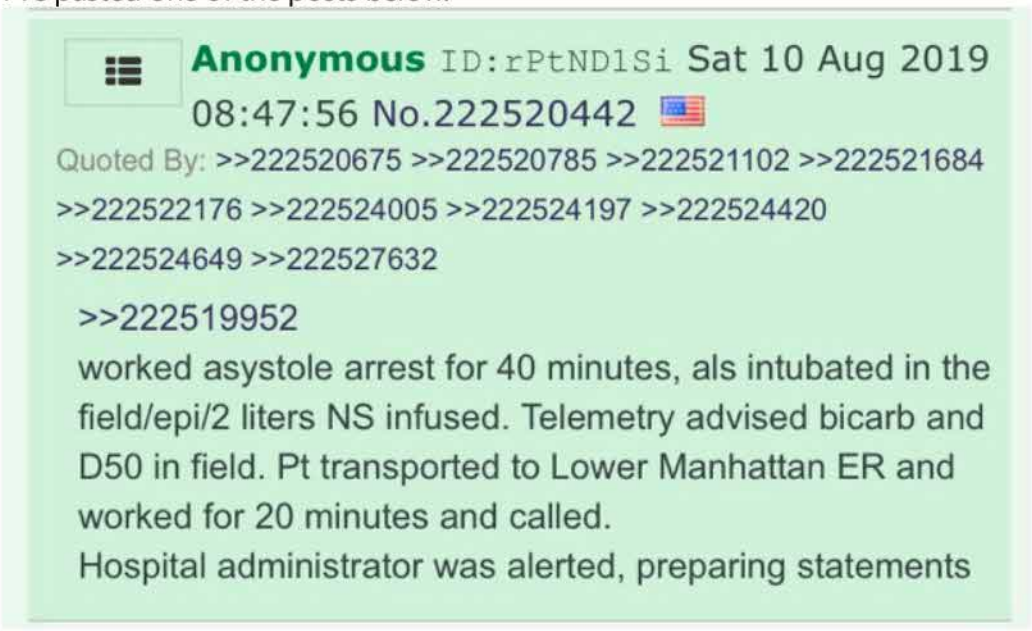
Hello (b)(6); (b)(7)(C)

I'm a reporter with BuzzFeed News. I'm reaching out on a story regarding Jeffrey Epstein's death. We have found a series of posts that were made on the website 4chan prior to any public announcement of Epstein's death. The first post was made at 8:15 AM and the subsequent posts described in detail the first responders' actions. The first news report about Epstein's death was at roughly 9 AM.

I've pasted one of the posts below:



Can you verify the accuracy of what's been posted? Would speaking publicly about an inmate's death break any procedures? If so, does MCC plan to take any action on the matter or investigate it?

Please get back to me as soon as possible today.

Thank you,

(b)(6); (b)(7)(C) s discussed, several options are below. Please note that we should discuss timing of all this. I will need to ensure staff are notified first, and I should let my Executive Staff know so they are not taken off guard as they will no doubt get a lot of questions from their staff and other wardens. Also note that the Warden just called Ray and told him the US Attorney is meeting with him at 10 am tomorrow. So this probably should be some time after that interview.

AW Skipper-Scott,

Inmate Epstein seems psychologically stable.

He complained that his right arm was numb and hanging earlier. Nurse (b)(6); (b)(7)(C) saw him.

He again said his right arm still feels somewhat numb and he said he cannot make a fist with that hand. He also said he has numbness on his neck. I informed Nurse (b)(6); (b)(7)(C)

He stated the toilet in his cell was running for 45 minutes last night and he could not take the noise. He is going to try the toilet before going to legal today and if it does not shut off, he will be moved to another cell.

Thanks,

(b)(6); (b)(7)(C)

Can you not just move him to another cell? He will not have lunch in Attorney Conference. He will go back to his cell to eat. He knows this.

(b)(6); (b)(7)(C) here is a timeline of his arrival at the MCC:

7/6/19: Arrived at NYM (Saturday) in the Receiving and Discharge area. Moved by staff to general population (apparently USMS did not indicate that he was a high profile inmate and staff were unaware that he was coming so no pkans had been established).
7/7/19: Warden idenfied him as high profile and moved him to Special Housing Unit due to his concerns for his personal safety in general population.
7/8/19: Upon return of Psych Svc Staff on Monday, he was moved to Psychology Observation for evaluation by Psych Svc Staff. This is NOT suicide watch and the system notes reflect suicide watch not warranted. He was under 24 hour observation during this time to assess his readiness to move to SHU.
7/10/19: Returned to SHU with cell mate. Remains until 7/23.

This appears consistent with PDS. The one edit I suggest based on PDS is to delete the text I colored red and replace it with the green. PDS reflects he was placed in Psyc Observation that night after he returned from court and was assessed the next morning.

He complained about being dehydrated because he stated he cannot drink enough water because of limited bathroom breaks in Legal since he stated he sees his Attorney for about 12 hours.

He also complained about having to go back up to SHU. Being anxious about it and not being able to sleep there because of the noise of inmates banging and screaming at night.

There has been an incident with a high profile prisoner (Jeffrey Epstein) at MCC New York. We are trying to get some basic information about the incident and are having a hard time getting any information out of the facility. Is there someone we could speak to and get the basic information? The USM and Chief for our S/New York office are having no luck with the Warden and Assistant Warden.

Dear Warden N'Diaye,

Thank you for your letter of August 10, 2019 regarding the death of Jeffrey Epstein. Mr. Epstein's death is a tragedy to everyone involved in his case.

One open question, among others, is whether the investigations referenced in your letter will include the incident at MCC involving Mr. Epstein on or about July 23, 2019. To my knowledge, it has never been definitively explained what the BOP concluded about that incident.

Sincerely,

Richard M. Berman

A couple of issues came out of the Epstein Reconstruction which I wanted to problem solve when you have an opportunity to meet:

(b)(5)

Other issues regarding the SW program:

1. We need to ensure the Unit 2 Officer is making rounds each hour and signing the log book. While the officer is back there, if an inmate companion needs to utilize the bathroom he should be allowed to do so. Inmate Companions have been urinating in the garbage cans out of desperation.

2. Inmates on suicide watch need to be fed as timely as possible.

3. Inmates on suicide watch need to receive showers on M, W, and F.

4. Suicide Watch mattresses are being taken from our area to be used in GP. They are specialized and expensive mattresses.

5. If my orderly brings dirty smocks to the elevator, can internal bring them to the laundry in the basement? Dirty Smocks are getting misplaced or thrown away.

6. Lt.'s need to strip out the inmate going on suicide watch and thoroughly search the inmate companions coming down for contraband and inappropriate items. If the inmate companions bring down contraband for the inmates on Suicide Watch, they will be terminated.

7. Lt.' need to search the suicide watch room before inmates go into the room on suicide watch.

8. Lt.'s need to ensure inmates on suicide watch are placed in a smock without clothing, glasses, etc. unless otherwise indicated by a psychologist and with on the front of the log book.

hi (b)(5)
hope you are well. We saw an article tonight on someting called Radaronline reporting that Jeffrey Epstein attempted to commit suicide at the MCC (unsuccessfully.)

Are you in a position to help me on that with some sort of confirmation or information. (Or to dispel its veracity?) thanks, (b)(5)

Good Morning:

I would like to confirm the accuracy that management has approved that the above inmate's meals be delivered from the housing unit, for every feeding, to Attorney Conference?

Additionally, is it correct that management has instructed that the inmate be escorted to the restroom every hour without being restrained, despite being a SHU inmate?

Has the process changed for all inmates? If not, this is clear preferential treatment of an inmate. All other inmates who are in attorney conference or attending court during feeding, are provided a bagged lunch which is sent up from food service every morning.

Please provide a response.

Thank You,

I will need to ensure staff are notified first, and I should let my Executive Staff know so they are not taken off guard as they will no doubt get a lot of questions from their staff and other wardens. Also note that the Warden just called Ray and told him the US Attorney is meeting with him at 10 am tomorrow. So

this probably should be some time after that interview.

Also, the two officers that we are putting on AL, one is scheduled off today already and the other didn't show (so far). So the urgency of putting them on AL is less if they are not there. Ray is checking on the schedule of the others.

Good Morning:

I would like to confirm the accuracy that management has approved that the above inmate's meals be delivered from the housing unit, for every feeding, to Attorney Conference?

Additionally, is it correct that management has instructed that the inmate be escorted to the restroom every hour without being restrained, despite being a SHU inmate?

Has the process changed for all inmates? If not, this is clear preferential treatment of an inmate. All other inmates who are in attorney conference or attending court during feeding, are provided a bagged lunch which is sent up from food service every morning.

Please provide a response.

Thank You,

(b)(6); (b)(7)(C) orry to bother you with this:

Update: We got over 30 inquiries. My boss is drafting a very short answer that will probably say we don't comment on an inmate's health status or conditions of confinement for privacy reasons.

My boss had me call MCC NY just now to be sure they are not releasing varying statements to the media, we want the institution & me to use the same exact statement to all media (we'll give them the statement we come up with shortly and be sure they're fine with it) and they just told me you're acting will call me back shortly.

Last thing - I didn't realize he went to the hospital, I might ask your acting exec. if he's still at the hospital or how long there, etc., if that's true (news article say he went to a hospital).

hope you are well. We saw an article tonight on someting called Radaronline reporting that Jeffrey Epstein attempted to commit suicide at the MCC (unsuccessfully.)

Are you in a position to help me on that with some sort of confirmation or information. (Or to dispel its veracity?) thanks, (b)(6); (b)(7)(C)

Good morning (b)(6); (b)(7)(C)

I spoke with folks here and confirmed we can proceed under our usual procedure for releasing medical/psych records to defense counsel. Accordingly, please send me a cover letter confirming you're defense counsel of record, the attached certification of identity, and a Rule 17 subpoena (no need to be so-ordered; a clerk's subpoena is fine). Normally we would require a HIPAA release as well, but privacy rights don't survive death in this context. Once I receive the certification, letter, and subpoena,, I will have the USAO's Civil Division authorize the records release as wall counsel pursuant to *United States ex rel. Touhy v. Regan,* 340 U.S. 462 (1951) and the associated regulations.

Please let me know if you have any questions/concerns.

Thank you,

Hugh,

1. The attached spreadsheet has three tabs with counts on Attempts, Self Harm and Placement on Suicide Watch for all of our institutions between 2014-2018 and it was shared with IPPA.

2. This is a reporter's question sent to IPPA along with our response and my recommendation for adding more information.

(4) Also, does BOP have any special initiatives under way to help reduce the numbers? What is BOP's response to the union's contention is staffing shortages is at the root of the problem?

(b)(5)

3. The second attachment is a collection of data Psychology Services does every year. 2018 and 2017 will likely have one more death added to each year. This were discovered this week, one at CAA and one at an RRC that PSB was never notified about.

Please let me know if you have any questions.

The safety of staff, inmates, and the public is the highest priority for the Bureau of Prisons (BOP). The BOP has an extensive Suicide Prevention Program that begins upon an inmate's arrival at each BOP facility, including pretrial facilities such as MCC New York. See BOP Program Statement 5324.08 "Suicide Prevention Program" here https://www.bop.gov/policy/progstat/5324_008.pdf and BOP Program Statement 5310.17 "Psychology Services Manual" here https://www.bop.gov/policy/progstat/5310_017.pdf. During the initial intake screening by medical staff, inmates complete a psychological questionnaire. Psychology Services staff are immediately notified if suicidal ideation is apparent from the responses. Further, any BOP staff member may place an inmate on suicide watch.

The Suicide Prevention Program at each BOP facility is administered by a Suicide Prevention Program Coordinator. The Program Coordinator, who must be a doctoral-level psychologist, ensures compliance with suicide intervention and prevention policies, which include training, identification, referral, assessment, and intervention. In BOP facilities, suicide watch is typically a short-term and highly restrictive intervention measure. Every institution has one or more rooms designated specifically for housing an inmate on suicide watch. These areas are set aside as special cells, typically in the BOP's Health Services division, which allow staff to maintain a safe environment for the inmate without compromising the ability to observe and protect the inmate. This environment includes easy access to the room, privacy, unobstructed vision of the inmate at all times, and limited availability of objects, materials, or architectural features that would allow for easy self-injury. Inmates on suicide watch are evaluated daily by apsychologist and are constantly observed by either staff or inmate companions. Once an inmate is placed on suicide watch, the watch may only be terminated by a BOP psychologist following a face-to-face evaluation with the inmate.

With regard to staffing levels, 15,012 correctional officers are currently working at the BOP and 1,654 correctional officer positions are vacant as of August 3, 2019. The BOP continues to work on hiring and retaining staff nationally. As you are aware, the Epstein case is currently under investigation by the Federal Bureau of Investigation and the Department of Justice's Office of the Inspector General. The BOP is also conducting an After Action Review and a Suicide Reconstruction Review. The BOP will assess any additional measures which should be taken after those processes are completed.

The factors that lead an inmate from suicidal ideation to suicidal behavior are complex. Those factors include an individual's access to means (e.g., pills or razors), opportunity (e.g., privacy to implement a plan), motivation, and subjective feelings of defeat or humiliation.

Question:

In wake of the Epstein death, I understand that institutions across the bureau are designating specific officers to regularly monitor surveillance video in segregated housing units and other locations where inmates are at some risk for suicide. Answer sent to WA Post on 8/21/2019 (finalized by IPPA leadership after consulting (b)(6); (b)(7)(C)

The safety of staff, inmates, and the public is the highest priority for the Bureau of Prisons (BOP). The BOP has an extensive Suicide Prevention Program that begins upon an inmate's arrival at each BOP facility, including pretrial facilities such as MCC New York. See BOP Program Statement 5324.08 "Suicide Prevention Program" here https://www.bop.gov/policy/progstat/5324_008.pdf and BOP Program Statement 5310.17 "Psychology Services Manual" here https://www.bop.gov/policy/progstat/5310_017.pdf. During the initial intake screening by medical staff, inmates complete a psychological questionnaire. Psychology Services staff are immediately notified if suicidal ideation is apparent from the responses. Further, any BOP staff member may place an inmate on suicide watch.

The Suicide Prevention Program at each BOP facility is administered by a Suicide Prevention Program Coordinator. The Program Coordinator, who must be a doctoral-level psychologist, ensures compliance with suicide intervention and prevention policies, which include training, identification, referral, assessment, and intervention. In BOP facilities, suicide watch is typically a short-term and highly restrictive intervention measure. Every institution has one or more rooms designated specifically for housing an inmate on suicide watch. These areas are set aside as special cells, typically in the BOP's Health Services division, which allow staff to maintain a safe environment for the inmate without compromising the ability to observe and protect the inmate. This environment includes easy access to the room, privacy, unobstructed vision of the inmate at all times, and limited availability of objects, materials, or architectural features that would allow for easy self-injury. Inmates on suicide watch are evaluated daily by apsychologist and are constantly observed by either staff or inmate companions. Once an inmate is placed on suicide watch, the watch may only be terminated by a BOP psychologist following a face-to-face evaluation with the inmate.

With regard to staffing levels, 15,012 correctional officers are currently working at the BOP and 1,654 correctional officer positions are vacant as of August 3, 2019. The BOP continues to work on hiring and retaining staff nationally. As you are aware, the Epstein case is currently under investigation by the Federal Bureau of Investigation and the Department of Justice's Office of the Inspector General. The BOP is also conducting an After Action Review and a Suicide Reconstruction Review. The BOP will assess any additional measures which should be taken after those processes are completed.

The factors that lead an inmate from suicidal ideation to suicidal behavior are complex. Those factors include an individual's access to means (e.g., pills or razors), opportunity (e.g., privacy to implement a

plan), motivation, and subjective feelings of defeat or humiliation.

The list of visitors from our office is below:

(b)(6); (b)(7)(C)

As discussed, we would like to see the 2nd floor pscyh observation and suicide watch area; the 9th floor SHU, and Epstein's cell, which we understand to still be cordoned off. As discussed, we would appreciate if only MCC legal would escort us, and we will not speak to any of the guards present given the ongoing investigations. Please give me a call with any questions, and let us know what time and where we should go, and if it would be easier for us to enter via the 3rd floor bridge.

Thanks,

Hugh,
Wanted to give you the heads up, there is an Inmate Suicide Prevention Program Memo in your mailbox that you will probably want to review tomorrow. I discussed it with (b)(6); (b)(7)(C) today.

Basically following inmate Epstein's suicide, Wardens are defaulting to leaving inmates on suicide watch longer than the institutional Psychologists would advise. So the memo to the RDs seeks to remind Wardens to utilize the professional psychological expertise of the institutional psychologists in managing inmate suicide through the variety of healing strategies. (b)(6); (b)(7)(C) is in the office tomorrow, 10/18, if you want to discuss with her the best way to communicate this to the RD and Wardens and if you have any questions. Have a great day. Peace-(b)(6); (b)(7)(C)

(b)(6); (b)(7)(C)

As discussed, we would like to see the 2nd floor pscyh observation and suicide watch area; the 9th floor SHU, and Epstein's cell, which we understand to still be cordoned off. As discussed, we would appreciate if only MCC legal would escort us, and we will not speak to any of the guards present given the ongoing investigations. Please give me a call with any questions, and let us know what time and where we should go, and if it would be easier for us to enter via the 3rd floor bridge

According to his last Diagnostic and Care Level Formulation Note dated 7/09/19 by(b)(6); (b)(7)(C) "No Diagnosis, No Dx - Current."

Findings

The determination of whether an inmate is competent to proceed with the disciplinary process is based on a clinical assessment of the inmate's (1) ability to understand the nature of the proceedings, and (2) their ability to assist in their own defense. Depending on the outcome of the assessment, one of three findings can be made: (1) the inmate is COMPETENT to proceed with the disciplinary process; (2) the inmate is NOT PRESENTLY COMPETENT but could be restored to competence with treatment; or (3) the inmate is NOT COMPETENT and is unlikely to become competent.

Recommendations Regarding Sanctions

In the case of inmate Epstein, after a review of available psychological and psychiatric records as well as information pertaining to the offense conduct, it is determined that this inmate is:

(X) COMPETENT to proceed with the disciplinary process.
( ) NOT PRESENTLY COMPETENT, but could become competent with treatment; it is recommended that the inmate for an updated competency assessment in 30 days.
( ) NOT COMPETENT and not likely to become competent.

Focus of Session

He was seen by writer while he was on Psych Observation.

Subjective/Objective Presentation

He stated he hasn't slept well at MCC-NY because he hasn't had his cpap machine. He stated it is here and he will be able to start using it tonight. He discussed how he does not think he will able to sleep in SHU and how he does not like SHU because of the noise. He discussed issues on not getting some medication with Medical today.

The "Eating/Shower Chart" indicated yesterday he ate breakfast and dinner, drank liquids, and took a shower when offered and so far today it noted he ate breakfast and drank liquids. The Psych Observation Log noted he slept, drank water, went to legal, and talked to an Inmate Companion about investments.

Current Mental Status: He exhibited a neutral mood with a full range of affect. His speech was logical and coherent, with no loosening of associations or tangential, circumstantial or irrelevant speech. Auditory and visual hallucinations were denied, and delusions were not elicited. He did not engage in any bizarre or inappropriate behavior. There was no indication of disturbed thought process or content. Intellectual ability appeared to be above average. Personal hygiene was adequate. He denied current suicidal or self harm ideation and he agreed to immediately tell staff if he starts to have suicidal or self harm thoughts. He was future oriented. He does not appear to be an immediate danger to self. He denied thoughts of hurting others and he agreed to tell staff if he has these thoughts.

Intervention(s)

Supportive and educative interventions were provided. When asked about the Turning Point handouts for coping in SHU, he stated he already knows these strategies before he read the handouts and had tried them when he was in SHU the last time. He stated with the noise in SHU, he said the strategies will not work. He was encouraged to try them.

Progress/Plan

The Chief Psychologist was consulted. Psych Observation will be discontinued. Mr. Epstein was educated about both routine and emergency procedures for contacting Psychology staff. He will be seen in follow up by Psychology tomorrow to monitor his mental status and to provide further intervention if needed and he was informed that he will be seen by Psychology tomorrow. In the meantime, he was encouraged to self-refer to Psychology if needed to which he agreed and seems capable of doing. If he remains in SHU, he will be seen by Psychology in SHU Rounds and in SHU Reviews. The SHU Lt. was informed that Mr. Epstein needs to be housed with an appropriate cellmate.

Focus of Session

Inmate Epstein was seen while on psychological observation today in the hospital area.

Subjective/Objective Presentation

Same presentation today, but he said he thinks his memory for the incident (injury to his neck) may be impaired because of his sleep apnea. He is supposed to get his CPAP machine today. He is aware he will be returning to SHU, but said he is feeling unwell due to his inability to sleep and numbness in his arm. He requested to have one good night of sleep with his CPAP and will return to SHU with a cellmate tomorrow. (b)(7)(A) (b)(7)(A) I told him he can stay down one more night to receive his CPAP and a good night's sleep, but that he would be returned to SHU tomorrow. It was explained that there is no mental health issues precluding him from returning to SHU tomorrow and that we could not house him in the SW/Hospital area because (b)(7)((b)(7)(A) or more comfortable for him. (b)(7)(A)

According to his log book and eating/shower chart, he has been eating and drinking when not in his legal visits. He has also been writing and attending his legal visits.

Intervention(s)

Inmate EPSTEIN was provided with brief supportive interventions and psychoeducation regarding additional coping strategies. Inmate EPSTEIN was somewhat receptive to these interventions, but appears more concerned about getting his various needs in the prison (phone calls, recreation, housing placement concerns, etc.)

Progress/Plan

He will remain on psychological observation today and will transition to the SHU tomorrow. He will be seen by psychology daily to assess his mental status and psychological functioning.

Focus of Session

He was seen by writer while he was on Psych Observation.

Subjective/Objective Presentation

The "Eating/Shower Chart" noted that yesterday he ate breakfast. He is not in the Psych Observation cell for about 12 hours per day because of being in Attorney Conference with his Attorneys, so the "Eating/Shower Chart" may not reflect all of his meals. He stated he was served one meal in Attorney Conference yesterday. He stated he drinks a lot water at night. The Psych Observation log noted he talked about life in general population and he slept.

Earlier he had complained that his right arm was numb and hanging. Nurse (b)(6); (b)(7)(C) from Medical had seen him for this.

When this writer was interviewing him, he said his right arm still feels somewhat numb and he said he cannot make a fist with that hand. He also said he has numbness on his neck. This writer notified Nurse (b)(6); (b)(7)(C)

He stated last night when he flushed the toilet it kept flushing for 45 minutes. He stated he found it so aversive and upsetting that he said he sat in the corner and held his ears. He said because of this he was agitated for hours and was not able to sleep. The Lt. will be moving him to a different cell and he was informed of this. He stated the feeling he got with the noise of the toilet was similar to when he was in SHU. He said he may have something on the Autism spectrum. He said in the movie "Rain Man," the person with Autism had an aversion to noise. He stated he is also really good with numbers.

Current Mental Status: He exhibited a mildly anxious mood with a full range of affect. His speech was logical and coherent, with no loosening of associations or tangential, circumstantial or irrelevant speech. Auditory and visual hallucinations were denied, and delusions were not elicited. He did not engage in any bizarre or inappropriate behavior. He denied current suicidal or self harm ideation and he agreed to immediately tell staff and Inmate Companions if he starts to have suicidal or self harm thoughts. He was future oriented. He does not appear to be an immediate danger to self. He denied thoughts of hurting others and he agreed to tell staff and Inmate Companions if he has these thoughts.

Intervention(s)

Supportive and educative interventions were again provided. He had not been given the Turning Point handouts yesterday that were on his cell door, so they were handed to him by staff today.

Progress/Plan

He will remain on Psych Observation in an abundance of caution and pending housing arrangements to be made on Monday. While on Psych Observation, he will be seen daily by Psychology.

Focus of Session

Inmate Epstein was seen while on psychological observation in our hospital area.

Subjective/Objective Presentation

Prior to this writer's contact with him, Inmate Epstein showered and dressed himself for his legal visit today. He was smiling and did crack some jokes during the interview. He did elucidate some complaints and suggested being disappointed with this writer as he wants "to trust me and for me to trust him." He stated he remains unhappy with legal visiting procedures as he cannot go to the bathroom as frequently as he would like to since he has a "weak bladder." Inmate Epstein also reported since coming to the psychological observation area, he has felt constipated and needs his Colace. He had self-carry Colace in SHU, but since coming to the observation area, he has not had his medication. This writer immediately notified medical and his pills were being processed during the interview. Inmate Epstein also continues to complain about the conditions of SHU confinement (i.e., feeling punished, smells, noise, and restrictions).

(b)(7)(A)

(b)(7)(A) He does not exhibit symptoms of any cognitive disorder, seizure disorder, psychotic disorder, or dissociative disorder at this time or in the past. Inmate Epstein denied any current suicidal ideation, intention, or plan. He reported wanting to be alive to fight his legal case and go back and live life. He referred to himself as "a coward" and "I'm Jewish." He said he is not the type who likes pain or would ever attempt to harm himself.

While on psychological observation, inmate Epstein has been eating his meals, sleeping and interacting with the inmate companions. He is in legal visiting the majority of the day and in the evenings. His log book and eating/shower chart reflect the same. He has been speaking to inmate companions about investment strategies and about prison adjustment. Correctional Staff report during his legal visits, he is interacting with his attorney, animated, laughing, and joking.

Intervention(s)

Inmate Epstein was provided with supportive and coping skills interventions today. He was receptive to them, but mostly wanted to express his complaints about his current prison confinement status and needs. He wanted this writer to address them.

Progress/Plan

Inmate Epstein will remain on psychological observation in an abundance of caution and pending housing arrangements to be made on Monday. (b)(7)(A)

Focus of Session

Inmate Epstein was seen by this writer this morning while on psychological observation in the hospital area of the prison.

Subjective/Objective Presentation

Inmate Epstein was in good spirits today and engaged in reciprocal conversation with this writer this morning. He smiled and remarked, "welcome back" when this writer arrived. (b)(7)(A) (b)(7)(A) (b)(7)(A) (b)(7)(A) When this writer attempted to get a more detailed account from him, indicating that it would be rare to have such impairments in memory as he does not suffer from an acute cognitive disorder, he smiled and said he understood my position.

Inmate Epstein did reveal he is unhappy with his current confinement in Special Housing (SHU) as he considers it "a punishment cell." He said he finds the restrictions up there unfair as he has not done anything wrong. Inmate Epstein stated he feels it is dangerous in the SHU, he cannot sleep well up there due to noise from the other inmates, it smells, and it is difficult for him to work on his legal case up there. He stated he has not received the phone calls he was promised nor has he been able to receive recreation. It was explained to him that he spends the entire day in the attorney conference room and it is likely that he has missed the times when staff members have attempted to give him phone calls and recreation. Inmate Epstein also reported complaints about the attorney conference room, stating they do not take him to the bathroom frequently enough.

RISK AND PROTECTIVE FACTORS ASSESSED:

This writer screened the inmate for a variety of empirically validated factors commonly associated with risk for self-harm and suicide.

The following **STATIC** risk factors were assessed to be present and increase the inmate's risk for engaging in suicide related behaviors: High Profile Crime, Lack of family connections, Sex offender status

Of the **DYNAMIC** risk factors assessed, none were found to be present.

The following **PROTECTIVE** factors were assessed to be present and may decrease the inmate's risk of suicide:Able to identify reasons to live, Adequate problem solving skills, Denial of suicidal ideation/intention/plans, Future orientation, View of death as negative, Willingness to engage in treatment

As noted above, Inmate Epstein is a 66-year-old Caucasian male. He has various risk factors for suicidality at this time including a high profile case with extensive media attention, sex offense/trafficking charges, pre-trial status, and he had a court proceeding yesterday which may have given him bad news regarding his legal situation. Inmate Epstein also informed this writer that his only family at this time is his brother, with whom he does not have a close relationship with.

Despite these risk factors, inmate Epstein possesses a number of protective factors at this time. Inmate Epstein adamantly denied any suicidal ideation, intention or plan. He was very future oriented and requested a phone call, to meet with his attorney, to take a shower, and to brush his teeth. He was eating his cereal when this writer arrived and said "I have my paper spoon here." He reported he is going to have a bail hearing on Monday and believes he is going to be released from jail. As you know (and AG Sessions and DAG Rosenstein were also acutely aware of), over the 5 years leading into this administration our prison population had dropped 40,000 inmates, but our staffing had gone up (and pop has continued to drop another almost 9,000 since the start of the Administration)! The drop in staffing that they are referring to also likely includes the 5156 unfunded vacant positions that were eliminated...positions we never could fill in the first place.
>
> We do not need more staff, we just need to fill the vacancies we have. I continue to point out to anyone that will listen (and have reiterated this in several Hill briefings), the problem is not our authorized staffing levels or funding, rather it is finding good candidates to come work for us in hard to fill areas. I have dozens of examples where we post jobs, get 30 applicants and only 10 end up actually coming on board. At that rate it will take a long time just to fill the vacancies we have. We are working on several new initiatives to try and make BOP more attractive to applicants (unfortunately news like this does not help).

Ok, this is going to be sensitive. Cant say I'm surprised people want to be cautious. I will want to hear about specific examples of significant problems. Why sending to RDs and not to all CEOs? All CEO memo will need Exec staff and union clearance first, but it will ensure the message gets out. We can discuss tomorrow.

Hugh,
Wanted to give you the heads up, there is an Inmate Suicide Prevention Program Memo in your mailbox that you will probably want to review tomorrow. I discussed it with (b)(6); (b)(7)(C) today.

Basically following inmate Epstein's suicide, Wardens are defaulting to leaving inmates on suicide watch longer than the institutional Psychologists would advise. So the memo to the RDs seeks to remind Wardens to utilize the professional psychological expertise of the institutional psychologists in managing inmate suicide through the variety of healing strategies. (b)(6); (b)(7)(C) is in the office tomorrow, 10/18, if you want to discuss with her the best way to communicate this to the RD and Wardens and if you have any questions. Have a great day. Peace- (b)(6); (b)(7)(C)

As discussed, we would like to see the 2nd floor pscyh observation and suicide watch area; the 9th floor SHU, and Epstein's cell, which we understand to still be cordoned off. As discussed, we would appreciate if only MCC legal would escort us, and we will not speak to any of the guards present given the ongoing investigations. Please give me a call with any questions, and let us know what time and where we should go, and if it would be easier for us to enter via the 3rd floor bridge.

Subject: Last contact with Epstein

I visited inmate Epstein in SHU on Thursday. He was getting ready to meet with his attorneys for the day so I had gone to visit him right after the SHU meeting. He had a cell mate at the time with whom I saw him interact with. He did not report any mental health concerns and he denied any suicidal thoughts or intention. He was asking this writer to go to general population and was making requests for various needs he had at the time. He wanted social calls without them being on a speaker phone. He wanted a book he had left in the suicide watch area. His mood was not depressed or anxious. There were no signs of distress. He had planned on meeting with his attorneys to work on his legal situation.

REPORT OF AUTOPSY

CASE NO. M-19-019432

I hereby certify that I, (b)(6); (b)(7)(C) *M.D., City Medical Examiner - II, have performed an autopsy on the body of Jeffrey Edward Epstein, on the 11 of August 2019, commencing at 9:21 AM in the Manhattan Mortuary of the Office of Chief Medical Examiner of the City of New York.*

EXTERNAL EXAMINATION:
The body is received in a sealed, labeled, plastic body bag (seal #152384). The body is of a well-developed, thin, muscular, light skinned, 5'10", 196 lb man whose appearance is consistent with the given age of 66 years. The scalp hair is wavy, predominantly grey with interspersed dark hairs, has slight male pattern balding, and measures up to 3". The facial hair is cleanly shaven. The eyes have light irides. The oral cavity has intact teeth in good repair. The tongue is free of natural disease. The finger and toenails are well groomed and free of polish. Striae are on the shoulders. The genitalia are atraumatic and of a normal, circumcised man. The anus is atraumatic.

POSTMORTEM CHANGES:
There is moderate, symmetric rigor mortis of the upper and lower extremities and the jaw. Lividity is fixed, purple, and unevenly distributed on the posterior surfaces of the body. The body is cool.

SCARS:
On the back of the left shoulder is an oblique, 1-1/2", well healed, linear scar. On the right lower quadrant of the abdomen is an oblique, 2", well healed, linear appendectomy scar.

THERAPEUTIC PROCEDURES:
An endotracheal tube is in the mouth, extending into the upper airway. On the lips are multiple, focal, red abrasions. A cervical collar encircles the neck. Electrocardiogram electrodes are on the torso. An intravascular catheter is in the left antecubital fossa. An intraosseous line is in the right shin. A blood pressure cuff encircles the upper, right arm. On the chest between the nipples is a 3" x 3", irregular, yellow abrasion. Internally, there are minimally hemorrhagic, parasternal, rib fractures of right ribs #4-6 and left ribs # 5-6, approximately 60 ml of liquid blood thinly coating the serosal

surfaces of the intra-abdominal organs, and an oblique, 6.5 cm laceration of the liver to the left of the falciform ligament (artifacts of resuscitative chest compressions).

CLOTHING:
The body is received clad in a hospital gown.

INJURIES, EXTERNAL AND INTERNAL:
These injuries are described in reference to standard anatomic planes. These injuries are grouped and labeled for descriptive purposes only; no sequence is implied.

A. HANGING:
There is a depressed, focally dried and abraded, noncircumferential ligature furrow of the neck that peaks slightly on both sides of the neck, more steeply on the right side than on the left. On the right side of the neck, the furrow bifurcates anterior to the ear, with one arm that peaks behind the right ear and one arm that extends to the right side of the back of the neck. On the back of the right side of the neck at the end of the lower arm of the furrow is a 1/2" x 1", irregular, red abrasion. The furrow ranges from 13-3/4" to 15" long (measured from both ends of the furrow on the right), and ranges from 1/8" to 1/2" wide. Anteriorly, the furrow passes over the thyroid cartilage. On the upper edge of the right side of the furrow beneath the chin is an adjacent, ¾ x 1", inverted V-shaped, linear abrasion that ranges in width from 1/8" to 1/4". Beneath the left side of the mandible is a faint, 1/2" x 1-3/4", irregular, red abrasion with multiple, interspersed, deeper, red abrasions that measure up to ¼ x 3/8".

The face and head are plethoric above the furrow, with petechial hemorrhages of the face that are most marked within the eyebrows. There are multiple, petechial hemorrhages of the palpebral conjunctivae of both eyes, and confluent hemorrhages on the periphery of the right bulbar conjunctiva. There are faint petechial hemorrhages on the mucosal surfaces of the upper and lower lips.

Within the parenchyma of the tongue are multiple, focal, spotty, purple hemorrhages. There is diffuse, purple hemorrhage at the base of the tongue. There are no hemorrhages of the anterior strap muscles of the neck. Posteriorly, there is a single hemorrhage in the left, deep, paraspinal muscles.

Both thyroid cartilage cornuae are fractured, and the left cornua of the hyoid bone is fractured, all with accompanying soft tissue hemorrhages. See also "Anthropology Report." There are no fractures of the cervical vertebrae.

B. OTHER INJURIES:
On the back of the left forearm is an oblique, 1", linear, red, abrasion with an adjacent, 1/2" x 1-1/4", faint, red abrasion. On the medial aspect of the back of the right wrist is a 1/8" x 1/2", faint, red contusion, and on the medial aspect of the back of the left wrist is a

similar, ½ x ¾", faint, red contusion. Internally, there is a deep muscle hemorrhage of the left deltoid muscle.

INTERNAL EXAMINATION:
HEAD: The scalp is without contusion or laceration. The skull is without fracture. There is no epidural, subdural or subarachnoid hemorrhage. The brain weighs 1520 gm. The brain, spinal cord, and dura mater are submitted for neuropathologic evaluation.

NECK: See "Injuries."

BODY HABITUS: The abdominal pannus is 1-1/4" thick. The body mass index is 27.

BODY CAVITIES: The pleural and pericardial cavities are free of abnormal fluid accumulations or adhesions. See also "Therapeutic Procedures."

CARDIOVASCULAR SYSTEM: The heart weighs 440 gm and has a normal distribution of right dominant coronary arteries with slight atherosclerosis (left main and left circumflex arteries, no stenoses; left anterior descending artery, multiple, focal, less than 50% stenoses; right coronary artery, multiple, focal, less than 50 to 60% stenoses). The myocardium is brown and diffusely fibrous. There is no focal fibrosis, hemorrhage, or pallor. The free wall of the left ventricle and the interventricular septum are each 1.9 cm thick, and the free wall of the right ventricle is 0.5 cm thick. The four valves and endocardial surfaces are unremarkable. The pulmonary vessels and the venae cavae are free of thrombus and embolus. The aorta has moderate atherosclerosis.

RESPIRATORY SYSTEM: The right lung weighs 560 gm and the left weighs 510 gm. Both lungs have spongy, maroon and pink parenchyma that is free of masses. The distribution of bronchi and vasculature are unremarkable. The bronchi are empty.

LIVER, GALLBLADDER, PANCREAS: The liver weighs 2480 gm and has soft, brown parenchyma. The gallbladder is unremarkable and contains approximately 30 ml of brown bile without stones. The pancreas is tan, lobular, and free of hemorrhage and mineralization.

HEMIC AND LYMPHATIC SYSTEMS: The spleen weighs 270 gm and has an intact, purple capsule and an unremarkable distribution of red and white pulp. There are multiple, enlarged, cervical lymph nodes, measuring up to 1.5 cm in greatest dimension. The remainder of the lymph nodes is unremarkable. There is no thymus. The bone marrow is unremarkable.

GENITOURINARY SYSTEM: The right kidney weighs 180 gm and the left weighs 160 gm. Both kidneys have granular, brown surfaces and otherwise unremarkable architecture and vasculature. The ureters maintain uniform caliber into an unremarkable

bladder that contains approximately 5 ml of cloudy, yellow urine. The prostate is slightly and diffusely enlarged, with marked enlargement of the verumontanum. The testes are unremarkable.

ENDOCRINE SYSTEM: The pituitary, thyroid, and adrenal glands are unremarkable.

MACROSCOPIC EXAMINATION (PERFORMED BY (b)(6); (b)(7)(C) **WITH** (b)(6); (b)(7)(C) **IN ATTENDANCE, ON 8/20/2019):**

The unfixed brain weighs 1520g (expected, 1200-1500g). Examination of the fixed brain (minus the left occipital pole, removed at the time of autopsy for possible toxicology) shows normal leptomeninges. No contusions, stigmata of herniation, or other surface abnormalities are seen. External brainstem landmarks and cranial nerves are normal. Vessels at the base are distributed normally, and have no atherosclerosis. The cerebellum is normal.

Coronal sections of the cerebral hemispheres reveal normal cortical ribbon, white matter, and deep gray nuclei. There is no midline shift. Hippocampi are symmetrical and of normal volume. Ventricles are normal in size and appearance.

Axial sections of the brainstem and cerebellum *en bloc* show the substantia nigra and locus ceruleus to be well-pigmented. The aqueduct and fourth ventricle are normal. Cerebellar cortex, white matter, and dentate are normal.

Cranial dura from the convexities, tentorium, and base shows falcine ossification (comment: common age-related finding). The venous sinuses and tributary (bridging) veins are patent.

Spinal cord and dura from upper cervical to cauda equina levels show no abnormality, externally or on midsagittal section.

ANTHROPOLOGY

BACKGROUND:

On 12 August 2019, the Forensic Anthropology Unit received a hyoid and larynx that were removed by (b)(6); (b)(7)(C) during the autopsy of a 66-year-old male and submitted for a trauma analysis. The hyoid was cleaned in warm water and a combination of sodium bicarbonate and enzyme detergent. The larynx was placed in formalin and the soft tissues of the thyroid and cricoid were manually removed to facilitate examination. The specimens were examined radiographically, macroscopically and microscopically.

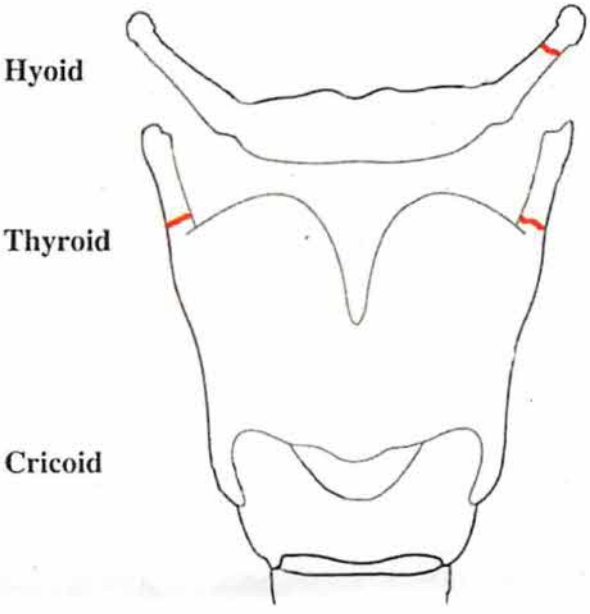

Figure 1. Diagram of the submitted hyoid and larynx (anterior view) showing the approximate fracture locations (red lines).

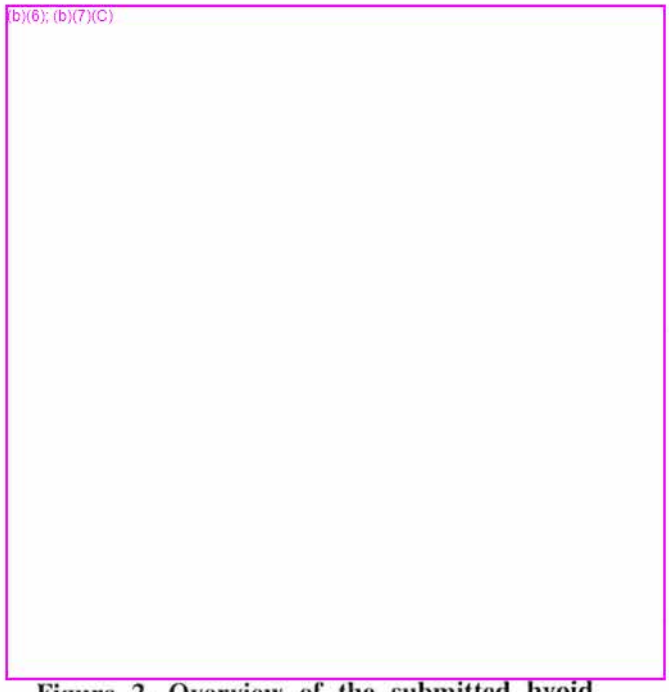

Figure 2. Overview of the submitted hyoid bone exhibiting a fracture to the left greater horn (white arrow).

FINDINGS:

Hyoid

The greater horns of the hyoid are bilaterally fused to the hyoid body. There is a fracture of the left greater horn (Figures 1 and 2).

Larynx

The thyroid cartilage is almost entirely ossified and the cricoid cartilage is partially ossified. The thyroid exhibits two fractures: one to the left superior horn and one to the right superior horn (Figures 1 and 3). The fractures to both the left and right superior horns occur just superior to the junction with the lamina. The cricoid does not exhibit any fractures.

(b)(6); (b)(7)(C)

Figure 3. Microscopic (10x) posterior views of fractures (white circles) to the left and right superior horns of the thyroid.

SUMMARY:

The hyoid bone exhibits a fracture of the left greater horn. The thyroid exhibits two fractures: one to the right superior horn and one to the left superior horn.

UNITED STATES GOVERNMENT
MEMORANDUM

Metropolitan Correctional Center, New York, New York

DATE: August 10, 2019

TO: Charisma Edge, Associate Warden Programs

FROM: (b)(6); (b)(7)(C) Psy.D., Ph.D., Forensic Psychologist (b)(6); (b)(7)(C) Psych

SUBJECT: Epstein #76301-054

This memo summarizes the psychology contacts with Mr. Epstein.

Mr. Epstein arrived on July 8, 2019, and was seen by psychology services for an intake screening in SHU. He denied any psychology history or symptoms. The Chief Psychologist spoke with Central Office on July 8, 2019, and it was determined he should be placed on suicide watch and seen for a suicide risk assessment after he returns from court due to his increased suicide risk factors. Mr. Epstein was seen on July 9, 2019, for a suicide risk assessment where he denied any suicide ideation, intention, or plan. Despite his risk factors of his sex offence charge, high profile case with media attention, and pretrial status housed in SHU, his protective factors outweighed his risk factors. He was future oriented, wanted to fight his case, and denied any mental health history or suicidality. He was removed from suicide watch and placed on psychology observation. He was seen the following day at which time he requested to be celled alone if housed in SHU and was told he could not. Mr. Epstein was released from psychology observation and seen on July 11, 2019, in attorney conference. He expressed concerns such as wearing an orange jumpsuit, not receiving medication, and not having enough water during attorney visits. Mr. Epstein was seen one week later, July 16, 2019, for follow up and because he was asking to be seen. He did not express any psychological concerns, rather correctional issues such as not getting a phone call and needing a spoon. An attempt at a SHU review was made on, July 18, 2019; however, Mr. Epstein was with his legal team.

(b)(7)(A)

(b)(7)(A) Mr. Epstein was seen daily while on psychology observation, each day denying he was suicidal. During one interview, he claimed he could not remember what happened because of his "sleep apnea." On July 30, 2019, Mr. Epstein was removed from psychology observation and returned to SHU. He reported he did not think he could sleep in SHU because of the noise. He denied any psychological concerns. It was noted he would be placed with a cellmate.

- On July 31, 2019, Mr. Epstein was seen for a psychology observation follow up. He stated he was doing as well as can be expected given his circumstances and reported he was going to court for a status hearing. He also reported he slept well. Mr. Epstein was seen for another suicide risk assessment on August 1, 2019, at approximately 1pm, as he returned from court with a note from the court indicating "suicidal tendencies." Mr. Epstein denied he was suicidal. (b)(7)(A) (b)(7)(A) He complained about the noise in SHU. Mr. Epstein's protective factors outweighed his risk factors and he was not placed on suicide watch. He denied suicidal ideation, reported fighting his case, stated he has emotional support, and stated suicide is against his religion.

On August 8, 2019, Mr. Epstein was seen for a follow up session. He stated he was feeling ok and his sleep was fair. He again requested to go to general population. He denied any mental health symptoms. He denied any suicide ideation, intention or plan. He had a cellmate. He spends his days with his attorney. It was noted he would continue to be seen for weekly rounds.

7.8.19- (b)(6); (b)(7)(C) **Consults with Central Office regarding Epstein and Risk Factors and R&D was instructed to place him on psychological observation when he returns from court pending a SRA. He is placed on psychological observation at 6:00 p.m.** Log book reflects he was asking I/C about how life is in GP and the crazy things he has seen as an I/C., about prison life, sleeping, pacing

7.9.19- (b)(6); (b)(7)(C) **Suicide Risk Assessment** (placement on Psych Obs after court proceeding as a precaution/precautionary SRA) – No mental health history, no substance abuse history, no suicide history, no suicidal thoughts. 2 Major alleged criminals in close proximity can be dangerous.
especially with 2 conflicting individuals who have a huge impact on our current environment.

I don't know about you but if I was an angry prisoner and was given an opportunity to hurt a child sex trafficker, as a parent, you never know what could.

All I'm asking is please take precaution and be careful.

I would prefer if his case goes to court, and he stays alive after his alleged cult-like island and all the people connected/ Involved to get the same.

Subject:	Fwd: MCC Camera systems, William Barr, and Epstein

FYI

(b)(6); (b)(7)(C) 1/7/2020 7:52 AM >>>

Epstein didn't kill himself, and Ag Barr is lying.... Well I guess more misleading is appropriate way of saying it (Lying through obfuscation). No one was "on camera" that could have went to Epstein's cell. Barr "has watched the videos." What he left out is that if you know the camera's timing and locations you could easily get to Epstein's cell easily. In fact 2-3 men (F.orB.illionairesI.nterests agents) could pass through the camera holes on their way to kill Epstein. So in order to debunk this "conspiracy theory" please release the camera type and capabilities of each camera, service records, repairs and upgrades. Can probably find this by going through your public budget/spending info, but thought this might be a quicker way. Now I understand you wouldn't want to give out location of cameras and I fully understand the need for that. Cameras pan, tilt, zoom in and could very easily create "holes" for people to go undetected. Yep there'd have to be many of you corrupt to pull this off and well that just adds to the credibility of my claims. Most of you are corrupt. Why was every "news' outlet reporting for WEEKS that two cameras were out and there was no correction to the story from anyone? Then Ag Barr claims to have watched all videos and says no one enter that area. Except you could get there without being on camera. So, technically he didn't lie, but he is trying to cover it up with completely misleading statements. Oh, and there was one camera out, the one pointed at his cell. Did he watch only a few hours, or a day or two prior? Criminals will wait and do crazy things in order to achieve their goals. I can only imagine the lengths the sick wealthy pedos in power and corrupt underlings would do to keep themselves safe. Just look at the ongoing coup by traitors. They'd do much worse than any criminal I am sure. Wait 1-?? days hidden to kill someone ABSOLUTELY!

A message from user (b)(6); (b)(7)(C) who sent an email from www.bop.gov.

I know this sounds like pure paranoia, But I have a strange feeling something might happen to Epstein, I've also heard (b)(6); (b)(7)(C) has recently been placed in the same institute.

2 Major alleged criminals in close proximity can be dangerous.
especially with 2 conflicting individuals who have a huge impact on our current environment.

I don't know about you but if I was an angry prisoner and was given an opportunity to hurt a child sex trafficker, as a parent, you never know what could.

All I'm asking is please take precaution and be careful.

I would prefer if his case goes to court, and he stays alive after his alleged cult-like island and all the people connected/ Involved to get the same.

Hello,

Epstein is pending a Code 228, Tattooing or Self-Mutilation and I spoke with (b)(6); (b)(7)(C) who indicated that most likely he will be found competent because he is not mentally ill. (b)(7)(A)
(b)(7)(A)

(b)(6); (b)(7)(C) is a 54-year-old White Male. He is a Pretrial inmate on a Supervised Release Violation for Failure to Register as Sex Offender. He is refusing to go to general population.

The other inmates in SHU were reviewed for a possible cell mate, however, inmate (b)(6); (b)(7)(C) (b)(6); (b)(7)(C) were determined the appropriate candidates as cell mates. However, (b)(6); (b)(7)(C) releases on July 26, 2019. He is also the current cell mate of inmate (b)(6); (b)(7)(C)

We are still reviewing cases in the general population for a possible cell mate.

Below is the definition of Psychological Observation provided by (b)(6); (b)(7)(C) Chief Psychologist. He will remain on Psychological Observation until tomorrow, where he will be reassessed.

DEFINITION: A Psychological Observation occurs when an inmate who suffers from a mental illness, a serious personality disorder, a medical problem (impairing their mental status), or drug intoxication and/or withdrawal symptoms begins to deteriorate. The inmate is no longer mentally stable and therefore, it is inappropriate for s/he to remain in general population or the Special Housing Unit (SHU). Inmates placed on psychological observation differ from inmates placed on suicide watch as they are not imminently suicidal (e.g., have not expressed self-harm or engaged in self-harming behavior), but rather, due to his/her impairment in mental status or functioning (e.g., not eating, not sleeping, disorganized/unusual thinking, poor self-care), his/her behavior can be unpredictable. Psychological Observation status is intended as a temporary designation to be utilized until such time as the inmate becomes sufficiently stable (e.g., able to function independently in general population) to be returned to his/her housing assignment or transferred to an inpatient psychiatric facility such as a Federal Medical Center.

He has a pending incident report for Self-Mutilation and therefore, he will return to the Special Housing Unit (SHU) and will be celled with inmate (b)(6); (b)(7)(C)
(b)(6); (b)(7)(C)

(b)(6); (b)(7)(C)

(b)(6); (b)(7)(C) His case has been highly publicized and he is in SHU because he requested Protective Custody.

Below is the definition of Psychological Observation provided by (b)(6); (b)(7)(C) Chief Psychologist. He will remain on Psychological Observation until tomorrow, where he will be reassessed.

DEFINITION: A Psychological Observation occurs when an inmate who suffers from a mental illness, a serious personality disorder, a medical problem (impairing their mental status), or drug intoxication and/or withdrawal symptoms begins to deteriorate. The inmate is no longer mentally stable and therefore, it is inappropriate for s/he to remain in general population or the Special Housing Unit (SHU). Inmates placed on psychological observation differ from inmates placed on suicide watch as they are not imminently suicidal (e.g., have not expressed self-harm or engaged in self-harming behavior), but rather, due to his/her impairment in mental status or functioning (e.g., not eating, not sleeping, disorganized/unusual thinking, poor self-care), his/her behavior can be unpredictable. Psychological Observation status is intended as a temporary designation to be utilized until such time as the inmate becomes sufficiently stable (e.g., able to function independently in general population) to be returned to his/her housing assignment or transferred to an inpatient psychiatric facility such as a Federal Medical Center.

He has a pending incident report for Self-Mutilation and therefore, he will return to the Special Housing Unit (SHU) and will be celled with inmate (b)(6); (b)(7)(C)
(b)(6); (b)(7)(C)
(b)(6); (b)(7)(C) His case has been highly publicized and he is in SHU because he requested Protective Custody.

Hello,

Epstein is pending a Code 228, Tattooing or Self-Mutilation and I spoke with (b)(6); (b)(7)(C) who indicated that most likely he will be found competent because he is not mentally ill. (b)(7)(A)
(b)(7)(A)
(b)(7)(A) Therefore, he will be pending a UDC hearing. Should he return to SHU, he will be housed with inmate

(b)(6); (b)(7)(C) is a 54-year-old White Male. He is a Pretrial inmate on a Supervised Release Violation for Failure to Register as Sex Offender. He is refusing to go to general population.

The other inmates in SHU were reviewed for a possible cell mate, however, inmate (b)(6); (b)(7)(C) (b)(6); (b)(7)(C) were determined the appropriate candidates as cell mates. However (b)(6); (b)(7)(C) releases on July 26, 2019. He is also the current cell mate of inmate (b)(6); (b)(7)(C)

We are still reviewing cases in the general population for a possible cell mate.

Below is the definition of Psychological Observation provided by (b)(6); (b)(7)(C) Chief Psychologist. He will remain on Psychological Observation until tomorrow, where he will be reassessed.

DEFINITION: A Psychological Observation occurs when an inmate who suffers from a mental illness, a serious personality disorder, a medical problem (impairing their mental status), or drug intoxication and/or withdrawal symptoms begins to deteriorate. The inmate is no longer mentally stable and therefore, it is inappropriate for s/he to remain in general population or the Special Housing Unit (SHU). Inmates placed on psychological observation differ from inmates placed on suicide watch as they are not imminently suicidal (e.g., have not expressed self-harm or engaged in self-harming behavior), but rather, due to his/her impairment in mental status or functioning (e.g., not eating, not sleeping, disorganized/unusual thinking, poor self-care), his/her behavior can be unpredictable. Psychological Observation status is intended as a temporary designation to be utilized until such time as the inmate becomes sufficiently stable (e.g., able to function independently in general population) to be returned to his/her housing assignment or transferred to an inpatient psychiatric facility such as a Federal Medical Center.

He has a pending incident report for Self-Mutilation and therefore, he will return to the Special Housing Unit (SHU) and will be celled with inmate (b)(6); (b)(7)(C)
(b)(6); (b)(7)(C)

(b)(6); (b)(7)(C)

(b)(6); (b)(7)(C) His case has been highly publicized and he is in SHU because he requested Protective Custody.

DEFINITION: A Psychological Observation occurs when an inmate who suffers from a mental illness, a serious personality disorder, a medical problem (impairing their mental status), or drug

intoxication and/or withdrawal symptoms begins to deteriorate. The inmate is no longer mentally stable and therefore, it is inappropriate for s/he to remain in general population or the Special Housing Unit (SHU). Inmates placed on psychological observation differ from inmates placed on suicide watch as they are not imminently suicidal (e.g., have not expressed self-harm or engaged in self-harming behavior), but rather, due to his/her impairment in mental status or functioning (e.g., not eating, not sleeping, disorganized/unusual thinking, poor self-care), his/her behavior can be unpredictable. Psychological Observation status is intended as a temporary designation to be utilized until such time as the inmate becomes sufficiently stable (e.g., able to function independently in general population) to be returned to his/her housing assignment or transferred to an inpatient psychiatric facility such as a Federal Medical Center.

He has a pending incident report for Self-Mutilation and therefore, he will return to the Special Housing Unit (SHU) and will be celled with inmate (b)(6); (b)(7)(C) (b)(6); (b)(7)(C) (b)(6); (b)(7)(C) His case has been highly publicized and he is in SHU because he requested Protective Custody.

Good morning: Same presentation today, but he said he thinks his memory for the incident (injury to his neck) may be impaired because of his sleep apnea. He is supposed to get his CPAP machine today. He is aware he will be returning to SHU, but said he is feeling unwell due to his inability to sleep and numbness in his arm. He requested to have one good night of sleep with his CPAP and will return to SHU with a cellmate tomorrow. (b)(7)(A) I told him he can stay down one more night to receive his CPAP and a good night's sleep, but that he would be returned to SHU tomorrow. It was explained that there is no mental health issues precluding him from returning to SHU tomorrow and that we could not house him in the SW/Hospital area because (b)(7)(A) or more comfortable for him. (b)(7)(A) He will remain on psychological observation today and will transition to the SHU tomorrow. Thank you, (b)(6); (b)(7)(C)

AW Skipper-Scott,

Inmate Epstein seems psychologically stable.

He complained that his right arm was numb and hanging earlier. Nurse (b)(6); (b)(7)(C) saw him.

He again said his right arm still feels somewhat numb and he said he cannot make a fist with that hand. He also said he has numbness on his neck. I informed Nurse (b)(6); (b)(7)(C)

He stated the toilet in his cell was running for 45 minutes last night and he could not take the noise. He is going to try the toilet before going to legal today and if it does not shut off, he will be moved to another cell.

Thanks,

Hello,

(b)(7)(A) (b)(7)(A) (b)(7)(A) Therefore, he will be pending a UDC hearing. Should he return to SHU, he will be housed with inmate (b)(6); (b)(7)(C) is a 54-year-old White Male. He is a Pretrial inmate on a Supervised Release Violation for Failure to Register as Sex Offender. He is refusing to go to general population.

The other inmates in SHU were reviewed for a possible cell mate, however, inmate (b)(6); (b)(7)(C) (b)(6); (b)(7)(C) were determined the appropriate candidates as cell mates. However, (b)(6); (b)(7)(C) releases on July 26, 2019. He is also the current cell mate of inmate (b)(6); (b)(7)(C)

Good morning: Same presentation today, but he said he thinks his memory for the incident (injury to his neck) may be impaired because of his sleep apnea. He is supposed to get his CPAP machine today. He is aware he will be returning to SHU, but said he is feeling unwell due to his inability to sleep and numbness in his arm. He requested to have one good night of sleep with his CPAP and will return to SHU with a cellmate tomorrow. (b)(7)(A) I told him he can stay down one more night to receive his CPAP and a good night's sleep, but that he would be returned to SHU tomorrow. It was explained that there is no mental health issues precluding him from returning to SHU tomorrow and that we could not house him in the SW/Hospital area because (b)(7)(A) or more comfortable for him. (b)(7)(A) He will remain on psychological observation today and will transition to the SHU tomorrow. Thank you, (b)(6); (b)(7)(C)

AW Skipper-Scott,

Inmate Epstein seems psychologically stable.

He complained that his right arm was numb and hanging earlier. Nurse (b)(6); (b)(7)(C) saw him.

He again said his right arm still feels somewhat numb and he said he cannot make a fist with that hand. He also said he has numbness on his neck. I informed Nurse (b)(6); (b)(7)(C)

He stated the toilet in his cell was running for 45 minutes last night and he could not take the noise. He is going to try the toilet before going to legal today and if it does not shut off, he will be moved to another cell.

Thanks,

Hello,

Epstein is pending a Code 228, Tattooing or Self-Mutilation and I spoke with (b)(6); (b)(7)(C) who indicated that most likely he will be found competent because he is not mentally ill. (b)(7)(A) (b)(7)(A) (b)(7)(A) Therefore, he will be pending a UDC hearing. Should he return to SHU, he will be housed with inmate (b)(6); (b)(7)(C) is a 54-year-old White Male. He is a Pretrial inmate on a Supervised Release Violation for Failure to Register as Sex Offender. He is refusing to go to general population.

The other inmates in SHU were reviewed for a possible cell mate, however, inmate (b)(6); (b)(7)(C) (b)(6); (b)(7)(C) were determined the appropriate candidates as cell mates. However (b)(6); (b)(7)(C) releases on July 26, 2019. He is also the current cell mate of inmate (b)(6); (b)(7)(C)

We are still reviewing cases in the general population for a possible cell mate.

If I haven't addressed your questions, please call me and let me know. Thanks.

Below is the definition of Psychological Observation provided by (b)(6); (b)(7)(C), Chief Psychologist. He will remain on Psychological Observation until tomorrow, where he will be reassessed.

DEFINITION: A Psychological Observation occurs when an inmate who suffers from a mental illness, a serious personality disorder, a medical problem (impairing their mental status), or drug intoxication and/or withdrawal symptoms begins to deteriorate. The inmate is no longer mentally stable and therefore, it is inappropriate for s/he to remain in general population or the Special Housing Unit (SHU). Inmates placed on psychological observation differ from inmates placed on suicide watch as they are not imminently suicidal (e.g., have not expressed self-harm or engaged in self-harming behavior), but rather, due to his/her impairment in mental status or functioning (e.g., not eating, not sleeping, disorganized/unusual thinking, poor self-care), his/her behavior can be unpredictable. Psychological Observation status is intended as a temporary designation to be utilized until such time as the inmate becomes sufficiently stable (e.g., able to function independently in general population) to be returned to his/her housing assignment or transferred to an inpatient psychiatric facility such as a Federal Medical Center.

He has a pending incident report for Self-Mutilation and therefore, he will return to the Special Housing Unit (SHU) and will be celled with inmate (b)(6); (b)(7)(C)
(b)(6); (b)(7)(C)
(b)(6); (b)(7)(C) His case has been highly publicized and he is in SHU because he requested Protective Custody.

Good morning: Same presentation today, but he said he thinks his memory for the incident (injury to his neck) may be impaired because of his sleep apnea. He is supposed to get his CPAP machine today. He is aware he will be returning to SHU, but said he is feeling unwell due to his inability to sleep and numbness in his arm. He requested to have one good night of sleep with his CPAP and will return to SHU with a cellmate tomorrow. (b)(7)(A) I told him he can stay down one more night to receive his CPAP and a good night's sleep, but that he would be returned to SHU tomorrow. It was explained that there is no mental health issues precluding him from returning to SHU tomorrow and that we could not house him in the SW/Hospital area because (b)(7)(A) or more comfortable for him. (b)(7)(A) He will remain on psychological observation today and will transition to the SHU tomorrow. Thank you (b)(6); (b)(7)(C)

AW Skipper-Scott,

Inmate Epstein seems psychologically stable.

He complained that his right arm was numb and hanging earlier. Nurse (b)(6); (b)(7)(C) saw him.

He again said his right arm still feels somewhat numb and he said he cannot make a fist with that hand. He also said he has numbness on his neck. I informed Nurse (b)(6); (b)(7)(C)

He stated the toilet in his cell was running for 45 minutes last night and he could not take the noise. He is going to try the toilet before going to legal today and if it does not shut off, he will be moved to another cell.

Thanks,

Hello,

Epstein is pending a Code 228, Tattooing or Self-Mutilation and I spoke wit(b)(6); (b)(7)(C) who indicated that most likely he will be found competent because he is not mentally ill.(b)(7)(A)
(b)(7)(A)
(b)(7)(A) Therefore, he will be pending a UDC hearing. Should he return to SHU, he will be housed with inmate (b)(6); (b)(7)(C) s a 54-year-old White Male. He is a Pretrial inmate on a Supervised Release Violation for Failure to Register as Sex Offender. He is refusing to go to general population.

The other inmates in SHU were reviewed for a possible cell mate, however, inmate(b)(6); (b)(7)(C)
(b)(6); (b)(7)(C) were determined the appropriate candidates as cell mates. However, (b)(6); (b)(7)(C) eleases on July 26, 2019. He is also the current cell mate of inmate(b)(6); (b)(7)(C)

We are still reviewing cases in the general population for a possible cell mate.

Below is the definition of Psychological Observation provided by [redacted] Chief Psychologist. He will remain on Psychological Observation until tomorrow, where he will be reassessed.

DEFINITION: A Psychological Observation occurs when an inmate who suffers from a mental illness, a serious personality disorder, a medical problem (impairing their mental status), or drug intoxication and/or withdrawal symptoms begins to deteriorate. The inmate is no longer mentally stable and therefore, it is inappropriate for s/he to remain in general population or the Special Housing Unit (SHU). Inmates placed on psychological observation differ from inmates placed on suicide watch as they are not imminently suicidal (e.g., have not expressed self-harm or engaged in self-harming behavior), but rather, due to his/her impairment in mental status or functioning (e.g., not eating, not sleeping, disorganized/unusual thinking, poor self-care), his/her behavior can be unpredictable. Psychological Observation status is intended as a temporary designation to be utilized until such time as the inmate becomes sufficiently stable (e.g., able to function independently in general population) to be returned to his/her housing assignment or transferred to an inpatient psychiatric facility such as a Federal Medical Center.

He has a pending incident report for Self-Mutilation and therefore, he will return to the Special Housing Unit (SHU) and will be celled with inmate [redacted] His case has been highly publicized and he is in SHU because he requested Protective Custody.

Hello,

Epstein is pending a Code 228, Tattooing or Self-Mutilation and I spoke with(b)(6); (b)(7)(C) who indicated that most likely he will be found competent because he is not mentally ill. (b)(7)(A)
(b)(7)(A)
(b)(7)(A). Therefore, he will be pending a UDC hearing. Should he return to SHU, he will be housed with inmate (b)(6); (b)(7)(C) is a 54-year-old White Male. He is a Pretrial inmate on a Supervised Release Violation for Failure to Register as Sex Offender. He is refusing to go to general population.

The other inmates in SHU were reviewed for a possible cell mate, however, inmate(b)(6); (b)(7)(C)
(b)(6); (b)(7)(C) were determined the appropriate candidates as cell mates. However,(b)(6); (b)(7)(C) releases on July 26, 2019. He is also the current cell mate of inmate(b)(6); (b)(7)(C)

We are still reviewing cases in the general population for a possible cell mate.

If I haven't addressed your questions, please call me and let me know. Thanks.

Below is the definition of Psychological Observation provided by (b)(6); (b)(7)(C) Chief Psychologist. He will remain on Psychological Observation until tomorrow, where he will be reassessed.

DEFINITION: A Psychological Observation occurs when an inmate who suffers from a mental illness, a serious personality disorder, a medical problem (impairing their mental status), or drug intoxication and/or withdrawal symptoms begins to deteriorate. The inmate is no longer mentally stable and therefore, it is inappropriate for s/he to remain in general population or the Special Housing Unit (SHU). Inmates placed on psychological observation differ from inmates placed on suicide watch as they are not imminently suicidal (e.g., have not expressed self-harm or engaged in self-harming behavior), but rather, due to his/her impairment in mental status or functioning (e.g., not eating, not sleeping, disorganized/unusual thinking, poor self-care), his/her behavior can be unpredictable. Psychological Observation status is intended as a temporary designation to be utilized until such time as the inmate becomes sufficiently stable (e.g., able to function independently in general population) to be returned to his/her housing assignment or transferred to an inpatient psychiatric facility such as a Federal Medical Center.

He has a pending incident report for Self-Mutilation and therefore, he will return to the Special Housing Unit (SHU) and will be celled with inmate (b)(6); (b)(7)(C)
(b)(6); (b)(7)(C)
(b)(6); (b)(7)(C) His case has been highly publicized and he is in SHU because he requested Protective Custody.

Below is the definition of Psychological Observation provided by (b)(6); (b)(7)(C) Chief Psychologist. He will remain on Psychological Observation until tomorrow, where he will be reassessed.

DEFINITION: A Psychological Observation occurs when an inmate who suffers from a mental illness, a serious personality disorder, a medical problem (impairing their mental status), or drug intoxication and/or withdrawal symptoms begins to deteriorate. The inmate is no longer mentally stable and therefore, it is inappropriate for s/he to remain in general population or the Special Housing Unit (SHU). Inmates placed on psychological observation differ from inmates placed on suicide watch as they are not imminently suicidal (e.g., have not expressed self-harm or engaged in self-harming behavior), but rather, due to his/her impairment in mental status or functioning (e.g., not eating, not sleeping, disorganized/unusual thinking, poor self-care), his/her behavior can be unpredictable. Psychological Observation status is intended as a temporary designation to be utilized until such time as the inmate becomes sufficiently stable (e.g., able to function independently in general population) to be returned to his/her housing assignment or transferred to an inpatient psychiatric facility such as a Federal Medical Center.

He has a pending incident report for Self-Mutilation and therefore, he will return to the Special Housing Unit (SHU) and will be celled with inmate (b)(6); (b)(7)(C)
(b)(6); (b)(7)(C)
(b)(6); (b)(7)(C). His case has been highly publicized and he is in SHU because he requested Protective Custody.

PSYCHOLOGICAL RECONSTRUCTION OF INMATE DEATH

(b)(7)(A)

Name: Jeffrey Epstein
Register Number: 76318-054

Date of Death: 08-10-2019

Prepared by: (b)(6); (b)(7)(C) National Suicide Prevention Coordinator, Psychology Services Branch, Central Office

BACKGROUND INFORMATION

Mr. Jeffrey Epstein was a 66-year-old, White male who died on August 10, 2019, while housed at the Metropolitan Correctional Complex (MCC), in New York, New York. James C. Wills, former Acting Assistant Director, Reentry Services Division, appointed a team to conduct a psychological reconstruction. The team consisted o (b)(6); (b)(7)(C) , National Suicide Prevention Coordinator, Central Office; (b)(6); (b)(7)(C) , Sex Offender Treatment Programs Coordinator, Central Office; (b)(6); (b)(7)(C) Mental Health Treatment Coordinator, Central Office; and (b)(6); (b)(7)(C) Correctional Services Administrator, Northeast Regional Office. This reconstruction was established in accordance with Bureau of Prisons' (BOP) Program Statement 5324.08, Suicide Prevention Program.

Social History: Mr. Epstein did not have a Pre-Sentence Report (PSR) available at the time of the reconstruction; therefore, no official information regarding social history was accessible. The following was gathered from publicly available documents. Mr. Epstein was born in 1953 and grew up in a middle-class family in the neighborhood of Sea Gate on Coney Island, Brooklyn, New York, with one brother. After early promotion in two grades, Mr. Epstein graduated from Lafayette High School in 1969, at the age of 16. He attended Cooper Union and New York University but did not graduate from either. Mr. Epstein taught at the Dalton School, a private school on the Upper East Side of Manhattan from September 1974 until he was

dismissed in June 1976 for inadequate development as a teacher. Following that, he held a number of positions in the financial industry to include a position as a limited partner at Bear Stearns until he was dismissed for unknown policy violations in 1981. He also worked as a financial consultant and founded at least two separate companies.

Mr. Epstein had two significant periods of employment. The first of these was his position as a consultant with (b)(6); (b)(7)(C) in the late 1980s. (b)(6); (b)(7)(C) was described as his first mentor. (b)(6); (b)(7)(C) was later convicted and incarcerated for running a large Ponzi scheme. He implicated Mr. Epstein in fraudulently diverting company funds for his own personal use. Years later (b)(6); (b)(7)(C) Mr. Epstein's sole client at J. Epstein and Company, granted him power of attorney over his affairs. Despite also being identified as (b)(6); (b)(7)(C) mentee, Mr. Epstein was again accused of misappropriating funds—more than 46 million dollars. These large sums are believed to be the seed money Mr. Epstein used to establish his considerable fortune. These events are indicative of Mr. Epstein's highly-regarded intelligence and charismatic personality.

Legal History: Mr. Epstein had a history of adult criminal charges and convictions. In June 2008, he entered into a non-prosecution agreement and pleaded guilty to one count Solicitation of Prostitution and one count Procuring a Person Under the Age of 18 for Prostitution in the state of Florida. He was sentenced to 30 months: 18 months of incarceration and 12 months of probation. He was also mandated to register as a sex offender under the National Sex Offender Registration and Notification Act. Mr. Epstein served 13 of his 18-month incarceration and then successfully completed 12 months of probation. It is unclear whether he followed the sex offender registration guidelines in each place he owned a residence.

In regard to pending charges, Mr. Epstein was formally charged with Sex Trafficking Conspiracy in violation of 18 U.S.C. § 371 and Sex Trafficking in violation of 18 U.S.C. § 1591(a), (b) (2), 2 on July 2, 2019. Specifically, he was accused of sexually exploiting and abusing minor females over the course of several years. Charging documents allege Mr. Epstein enticed and recruited minor females to engage in sexual activity. The minor females were reportedly compensated with cash following the sexual encounters and some were encouraged to find other minor females to accompany them to Mr. Epstein's residences in New York or Florida. He pleaded not guilty to these charges and was in pretrial status at the time of his death.

In a 37-page Decision & Order Remanding the Defendant, signed by Judge Richard M. Berman on July 18, 2019, 18 pages were dedicated to detailing the danger Mr. Epstein posed to others and the community. The document also alleged he was a flight risk. As a result, Mr. Epstein's proposed bail package was determined to be inadequate. He was denied pretrial release and held on remand.

Institutional History: On July 6, 2019, Mr. Epstein was arrested at Teterboro Airport in New Jersey upon his return from Paris, France. It is unknown whether he was anticipating this arrest. He was transported to MCC New York and keyed into SENTRY at 9:24 p.m. that evening. Mr. Epstein was placed in a general population housing unit for approximately 22 hours. On July 7, 2019, at approximately 7:20 p.m. he was moved to the Special Housing Unit (SHU) pending reclassification due to the significant increase in media coverage and awareness of his notoriety among the inmate population.

(b)(7)(A)

(b)(7)(A) Also, a review of financial transactions associated with Mr. Epstein's prison account revealed one of his attorneys was depositing funds into his cellmate's (inmate Reyes) commissary account for unknown reasons.

HEALTH CARE AND PERSONALITY DESCRIPTION

BOP Electronic Medical Records (BEMR) indicate Mr. Epstein was diagnosed with hyperlipidemia, sleep apnea, hypertension, constipation, prediabetes, neuralgia, and neuritis unspecified. He was prescribed the following mediations: docusate sodium, milk of magnesia, omega 3, methylprednisone, and bisacodyl. Mr. Epstein was also prescribed insulin, and the prescription required him to go to the institution pharmacy for administration of this medication. However, the dates for which it was prescribed have a notation indicating "dose not indicated," thus it does not appear insulin was routinely medically necessary. The rest of the medications prescribed were self-carry. He also had a continuous positive airway pressure (CPAP) machine which is typically used to treat sleep apnea. Mr. Epstein was provided with his personal CPAP machine on July 30, 2019, per BEMR.

(b)(7)(A)

(b)(7)(A)

(b)(7)(A) He reported frequent complaints of difficulty sleeping. He did not have access to his CPAP machine until it was reportedly provided to him on July 30, 2019. Mr. Epstein also reported he was bothered by noise in the SHU. At times, he noted concerns related to his safety in SHU or on a general population housing unit. On two occasions, July 26, 2019, and July 27, 2019, he described himself as a coward and as someone who does not like pain. On July 28, 2019, he told (b)(6); (b)(7)(C) the toilet in his cell would not stop flushing for an extended period of time, and he then took to sitting in the corner with his hands over his ears. Mr. Epstein indicated he was agitated following this incident and was unable to sleep that night.

ANTECEDENT CIRCUMSTANCES

Mr. Epstein entered BOP custody on July 6, 2019, with a history of convictions for sexual offenses and allegations comprised of more serious charges. The current indictment alleged sexual crimes against minors, and he was facing up to 45 years in prison. On July 18, 2019, Mr. Epstein's request for bail and pretrial release was denied.

(b)(7)(A)

On August 9, 2019, a federal court unsealed approximately 2,000 pages of documents into the public domain. These included graphic allegations against Mr. Epstein. Included was a book order receipt for titles such as *SM 101: A Realistic Introduction*; *SlaveCraft: Roadmaps for Erotic Servitude*; and *Training with Miss Abernathy: A Workbook for Erotic Slaves and Their Owners*. Additional high profile public figures were also named in the released documents. The documents were part of a defamation lawsuit filed by Virginia Roberts Giuffre, a woman who alleged Mr. Epstein had victimized her, against a British socialite, Ghislaine Maxwell, who was Mr. Epstein's ex-girlfriend, associate, and alleged to have assisted with his criminal activities. According to staff report, Mr. Epstein was afforded telephone calls on two different days although it is unknown whether they were legal or social calls. No recording of the calls exist and it is not known with whom he was speaking. One occurred on or around July 16, 2019, and the other on August 9, 2019. Legal calls are not monitored, and would not be recorded. A social call would be recorded; given the limited information known about Mr. Epstein, knowledge of the content of any social calls would have been crucial to helping staff work with him.

(b)(7)(A)

Inmate movement and assignments are not accurately reflected in SENTRY as required by P5500.14, Correctional Service Procedures Manual.

9. Attorney Log Books: Four log books were not secured following Mr. Epstein's death. Specifically, three Attorney Log Books located in the Attorney Visiting and Front Lobby areas and an Inmate Search Log Book located in the Attorney Visiting area were not secured. All four books were still in use at the outset of the reconstruction and after the reconstruction team advised staff to secure them. P5324.08 states, "In the event of a suicide, institution staff, particularly Correctional Services staff, and other law enforcement personnel, will handle the site with the same level of protection as any crime scene in which a death has occurred." This policy further states, "All possible evidence and documentation will be preserved to provide data and support for subsequent investigators doing a psychological reconstruction."

   Further, a review of the attorney log books identified many errors and signify a systemic concern. For example, there were two concurrently open attorney log books in the Attorney Visiting area. Further, the different purposes of the two attorney log books, one in the Attorney Visit area and one in the Front Lobby, could not be explained. BOP staff were unable to articulate a system of control for the log books, and during the reconstruction, some of the log books could not be accounted for. Within the log books, entries were made out of chronological order, attorneys did not consistently sign in and out, significant information was illegible or missing, columns were not consistently labeled, log book opening and closing dates were inconsistent, and the cover had been torn off of several books. At the current time, these log books are not functioning as an adequate system of control and monitoring.

10. Automatic External Defibrillators: A review of available AEDs in the institution revealed that the list used for accountability and inspection purposes was inaccurate and incomplete.

11. Post Orders & SHU Training: SHU Post Orders Sign-In Sheets were reviewed for the 3rd Quarter, spanning June 9, 2019, to September 7, 2019. Officer (b)(6); (b)(7)(C) failed to sign post orders for SHU #3 post.

    Quarterly SHU Training Sign-In Sheets were reviewed. The 2019 3rd Quarter SHU Training was conducted on June 6, 2019. Three staff assigned to the 3rd Quarter SHU Roster in SHU did not attend or receive the SHU Training: Officer (b)(6); (b)(7)(C) Officer (b)(6); (b)(7)(C) and Officer (b)(6); (b)(7)(C)

12. Staffing: The Drug Abuse Program Coordinator positon at MCC New York was abolished during Phase I of the staff realignment during fiscal year 2018. Re-establishing

the Drug Abuse Program Coordinator position would provide the institution with an additional supervisory psychologist to provide critical clinical services.

Staffing in the Correctional Services department is relevant to the reconstruction. However, the details about this topic are provided in an After Action Review completed separately from this report.

13. Sex Offense Risk Factors: A broad understanding of risk factors associated with sex offenders, by staff at MCC New York, did not appear to be present in all staff but was vital to his adjustment and safety in prison. (b)(5)

Hello,

Epstein is pending a Code 228, Tattooing or Self-Mutilation and I spoke with (b)(6); (b)(7)(C) who indicated that most likely he will be found competent because he is not mentally ill. (b)(7)(A) (b)(7)(A) (b)(7)(A) Therefore, he will be pending a UDC hearing. Should he return to SHU, he will be housed with inmate (b)(6); (b)(7)(C) is a 54-year-old White Male. He is a Pretrial inmate on a Supervised Release Violation for Failure to Register as Sex Offender. He is refusing to go to general population.

The other inmates in SHU were reviewed for a possible cell mate, however, inmate (b)(6); (b)(7)(C) (b)(6); (b)(7)(C) were determined the appropriate candidates as cell mates. However, (b)(6); (b)(7)(C) releases on July 26, 2019. He is also the current cell mate of inmate (b)(6); (b)(7)(C)

We are still reviewing cases in the general population for a possible cell mate.

If I haven't addressed your questions, please call me and let me know. Thanks.

Below is the definition of Psychological Observation provided by (b)(6); (b)(7)(C) Chief Psychologist. He will remain on Psychological Observation until tomorrow, where he will be reassessed.

DEFINITION: A Psychological Observation occurs when an inmate who suffers from a mental illness, a serious personality disorder, a medical problem (impairing their mental status), or drug intoxication and/or withdrawal symptoms begins to deteriorate. The inmate is no longer mentally stable and therefore, it is inappropriate for s/he to remain in general population or the Special Housing Unit (SHU). Inmates placed on psychological observation differ from inmates placed on suicide watch as they are not imminently suicidal (e.g., have not expressed self-harm or engaged in self-harming behavior), but rather, due to his/her impairment in mental status or functioning (e.g., not eating, not sleeping, disorganized/unusual thinking, poor self-care), his/her behavior can be unpredictable. Psychological Observation status is intended as a temporary designation to be utilized until such time as the inmate becomes sufficiently stable (e.g., able to function independently in general population) to be returned to his/her housing assignment or transferred to an inpatient psychiatric facility such as a Federal Medical Center.

He has a pending incident report for Self-Mutilation and therefore, he will return to the Special Housing Unit (SHU) and will be celled with inmate (b)(6); (b)(7)(C)
(b)(6); (b)(7)(C)
(b)(6); (b)(7)(C) His case has been highly publicized and he is in SHU because he requested Protective Custody.

Good morning: Same presentation today, but he said he thinks his memory for the incident (injury to his neck) may be impaired because of his sleep apnea. He is supposed to get his CPAP machine today. He is aware he will be returning to SHU, but said he is feeling unwell due to his inability to sleep and numbness in his arm. He requested to have one good night of sleep with his CPAP and will return to SHU with a cellmate tomorrow. (b)(7)(A) I told him he can stay down one more night to receive his CPAP and a good night's sleep, but that he would be returned to SHU tomorrow. It was explained that there is no mental health issues precluding him from returning to SHU tomorrow and that we could not house him in the SW/Hospital area because (b)(7)(A) or more comfortable for him. (b)(7)(A) He will remain on psychological observation today and will transition to the SHU tomorrow. Thank you, (b)(6); (b)(7)(C)

AW Skipper-Scott,

Inmate Epstein seems psychologically stable.

He complained that his right arm was numb and hanging earlier. Nurse (b)(6); (b)(7)(C) saw him.

He again said his right arm still feels somewhat numb and he said he cannot make a fist with that hand. He also said he has numbness on his neck. I informed Nurse (b)(6); (b)(7)(C)

He stated the toilet in his cell was running for 45 minutes last night and he could not take the noise. He is going to try the toilet before going to legal today and if it does not shut off, he will be moved to another cell.

Thanks,

Inmate Epstein denied any treatment in the past or present with psychotropic medication. He also denied any acute mental health symptoms at this time."

Self-Harm History

According to a Suicide Risk Assessment dated 7/09/19 by (b)(6); (b)(7)(C) "Inmate Epstein denied any past or present suicidal ideation, intention or plan. He denied ever engaging in any suicide attempts or self-injurious behavior in the past."

(b)(7)(A)

Current Problem

R & D staff reported to this writer this morning at about 8:30 AM on 8/01/19 that yesterday when Mr. Epstein was brought back from court the US Marshals asked him to sign a form that noted Mr. Epstein has "suicidal tendencies." This is likely due to the incident on 7/23/19, but as a precaution another Suicide Risk Assessment was conducted.

Mr. Epstein seemed surprised that there was a form noting suicidal tendencies. He denied stating he was suicidal.

He said he saw the DHO today and he said his incident report for the marks on his neck was expunged. He stated even though he has his cpap machine now, he said his cellmate talks at night and he stated this keeps him up. This writer offered to talk to the SHU Lt. to have him housed with a different cellmate, but he stated he wants to give it 3 to 4 days to see if he wants a different cellmate. He complained about the noise in SHU.

He stated he wants it noted in his chart that he is being given a pamphlet on sleep, but that is not going to help because of the noise in SHU that prevents him from sleeping.

Progress/Plan

He will remain on Psych Observation in an abundance of caution and pending housing arrangements to be made on Monday. While on Psych Observation, he will be seen daily by Psychology.

9. Attorney Log Books
Please provide a copy of the log book audit.

Institution Response:

The audit revealed the **Random Visitor Log Book** did not reflect visitor pat searches after May 19, 2019. In addition, the log book does not offer a column to annotate a staff witness. The **Contractor/Volunteer Log Book** was not always filled in properly. The **Law Enforcement Log Book** was up to date; however, the time of departure was not always documented. The **Attorney Log** was missing inmate register numbers and more often than not was legible. There was no **Visitor Denial Log** created. The audit conducted on September 25, 2019, is attached for your review.

Additional corrective measures will now include the Activities Lieutenant checking all Front Lobby log books. The Captain will ensure these checks are included in the Lieutenant's Daily Log for Day Watch and Evening Watch. In addition, the Activities Lieutenant will address any discrepancies immediately through on the spot training and/or performance log entries.

13. Sex Offense Risk Factors

Psychologists are subject matter experts in sex offender risk factors and they play a crucial role in sharing this knowledge through traditional settings such as ICT, AT, and institutional meetings. However, Executive Staff play a pivotal role in establishing and addressing institutional culture and promoting and participating in training. A lack of a broad understanding of sex offender specific risk factors requires an intentional training approach led by Executive Staff. They must be out front talking about inmates with a sex offense, expressing an understanding of sex offender dynamics, modeling agency condoned expectations for the understanding and treatment of inmates with a sex offenses, and assisting with institutional trainings. These practices encourage a broader acceptance by line staff.

Institution Response:

The MCC New York Executive Staff are out front talking about inmates with sex offenses, and expressing an understanding of sex offender dynamics, modeling agency expectations for the understanding and treatment of inmates with sex offenses. This is done through departmental meetings, trainings, staff recalls and walking and talking throughout the institution.

(b)(7)(A)

9. Attorney Log Books: Four log books were not secured following Mr. Epstein's death. Specifically, three Attorney Log Books located in the Attorney Visiting and Front Lobby areas and an Inmate Search Log Book located in the Attorney Visiting area were not secured. All four books were still in use at the outset of the reconstruction and after the reconstruction team advised staff to secure them. P5324.08 states, "In the event of a suicide, institution staff, particularly Correctional Services staff, and other law enforcement personnel, will handle the site with the same level of protection as any crime scene in which a death has occurred." This policy further states, "All possible

evidence and documentation will be preserved to provide data and support for subsequent investigators doing a psychological reconstruction."

Further, a review of the attorney log books identified many errors and signify a systemic concern. For example, there were two concurrently open attorney log books in the Attorney Visiting area. Further, the different purposes of the two attorney log books, one in the Attorney Visit area and one in the Front Lobby, could not be explained. BOP staff were unable to articulate a system of control for the log books, and during the reconstruction, some of the log books could not be accounted for. Within the log books, entries were made out of chronological order, attorneys did not consistently sign in and out, significant information was illegible or missing, columns were not consistently labeled, log book opening and closing dates were inconsistent, and the cover had been tom off of several books. At the current time, these log books are not functioning as an adequate system of control and monitoring.

Institution Response: 9. Attorney Log Books:

On August 10, 2019, log books deemed relevant to the investigation were removed from various locations throughout the facility. The Reconstruction Team did identify pertinent logbooks that had not been secured. At this time, all relevant logbooks have been removed and replaced. In addition, a logbook audit was conducted to ensure accuracy of the documentation and compliance with policy. Measures are being taken to ensure in the future that all relevant logbooks are identified, secured immediately and replaced with new ones to ensure the institution can continue to run efficiently.

10. Automatic External Defibrillators: A review of available AEDs in the institution revealed that the list used for accountability and inspection purposes was inaccurate and incomplete.

Institution Response: 10: Automatic External Defibrillators:

A review of the Automatic External Defibrillators (AED) report presented by Great Lakes Biomedical Services dated July 22, 2019, revealed that all AEDS were accounted for and were placed in the correct respective areas. The report was accurate and complete. New AEDs have been purchased and will be inspected Great Lakes Biomedical Services upon their arrival. The list reviewed by the reconstruction team was an old and outdated list from January 8, 2018.

Medical staff provides training and conducts monthly inspections of all AEDs in the institution. Great Lakes Biomedical Services, an outside contractor, conducts a bi-annual inspection and provides a report. Procedures on inspecting all AEDS in the institution have been prepared and are awaiting approval. These procedures are attached hereto.

11. Post Orders & SHU Training: SHU Post Orders Sign-In Sheets were reviewed for the 3rd Quarter, spanning June 9, 2019, to September 7, 2019. Office[b)(6); (b)(7)(C)] failed to sign post orders for SHU #3 post.

Quarterly SHU Training Sign-In Sheets were reviewed. The 2019 3rd Quarter SHU Training was conducted on June 6, 2019. Three staff assigned to the 3rd Quarter SHU Roster in SHU did not attend or receive the SHU Training: Officer[b)(6); (b)(7)(C)] Officer[b)(6); (b)(7)(C)] and Officer[b)(6); (b)(7)(C)].

Institution Response: 11. Post Orders & SHU Training:

The Suicide Watch Post Orders are located in the Lieutenant's Office and SHU with a quarterly sign-in sheet. A copy of the Suicide Watch Post Orders will also be placed in a secure container outside of the suicide watch cells on Tier H in SHU. This container will also hold signature sheets and additional Staff Suicide Watch Log Books.

All staff members assigned to a suicide watch post are responsible for signing the post orders prior to performing the staff suicide watch. Attached please find a copy of the NERO Waiver permitting staff monitored suicide watches in SHU.

With regard to SHU Suicide Prevention training, this continues to be conducted on a quarterly basis. However, the sign-in sheets for this training are now be examined by the SHU Lieutenant for accuracy. If a staff member who is assigned to SHU misses the training, the sign-in sheet will be routed to the Captain, who will coordinate with the Chief Psychologist and schedule a time to receive a make-up session for the SHU Suicide Prevention Training.

SHU training is conducted quarterly two weeks from the beginning of the new quarter. A representative from Psychology will provide the required suicide prevention training. In addition, the SHU training on BOPLEARN will be completed by all staff assigned to SHU that day of training. SHU staff will be allotted time during that day to complete all prescribed web-based training as identified on the agenda. Staff who are assigned to SHU but have not received the mandatory training before assuming the post will be roster-adjusted to attend another training day as assigned by the Captain.

Staff assigned to suicide watch shall maintain a chronological log of the inmate's behavior. Blank log books will be maintained in the Lieutenants office and on the 2nd Floor. A chronological record of events will commence immediately upon the initiation of watch. It is the responsibility of the staff member initiating the watch to obtain a blank log book prior to initiating the watch. Different log books will be used for each inmate on suicide watch; each log book will contain entries for one suicide watch only. The name and register number of the inmate on watch shall be clearly printed on the front cover of the log book and at the top of each page in the log book in which entries are made.

During some suicide watches, staff observers may cover some shifts and inmate companions may cover others. In this instance, two separate log books must be used: one for the shifts during which staff are maintaining constant visual observation (blue) and another for shifts during which inmate companions are providing constant visual observation (yellow). When separate inmate companion log books are used, staff must sign the inmate companion log book every 60 minutes.

Lights will remain on inside the cell 24 hours day to ensure the inmate on watch can be seen. A Lieutenant will make rounds every shift and remove the inmate from the cell and perform a cursory search. No food items, trays, eating utensils, milk cartons, toilet paper, plastic bags, reading materials, pens, pencils, or anything else not prescribed by Psychology staff should be in the cell.

The inmate will be outfitted in a suicide preventive smock, suicide preventive blanket, suicide preventive mattress and if necessary a suicide preventive helmet. Inmate Companions will be searched prior to assuming duties. Inmate Companions are not allowed to have radios, mp3 players, magazines, books or anything that would distract them from maintaining constant supervision. Inmate Companions will not have direct or physical contact with inmates on suicide watch.

12. Staffing: The Drug Abuse Program Coordinator positon at MCC New York was abolished during Phase I of the staff realignment during fiscal year 2018. Re-establishing
the Drug Abuse Program Coordinator position would provide the institution with an additional supervisory psychologist to provide critical clinical services.

Staffing in the Correctional Services department is relevant to the reconstruction. However, the details about this topic are provided in an After Action Review completed separately from this report.

Institution Response: 12. Staffing:

The Drug Abuse Coordinator position is currently a shared position. The Warden has re-established the Drug Abuse Coordinator position as a full-time position to provide the Psychology Department with an additional supervisory psychologist to perform critical clinical services. At the current time, the position is pending selection.

We are currently in the process of requesting to hire a Staff Psychologist position to provide additional psychological services to inmates in the SHU, including therapy sessions with PSY ALERT, CC2-MH and CC3-MH inmates who are currently housed there. An additional psychologist could also monitor Hot List inmates arriving to the SHU and ensure they are housed with appropriate cellmates. This psychologist could conduct daily rounds to look for signs of psychological distress and address the concerns of our Long Term SHU inmates. Finally, an additional Staff Psychologist could assist with our daily crisis interventions and suicide risk assessments.

13. Sex Offense Risk Factors: A broad understanding of risk factors associated with sex offenders, by staff at MCC New York, did not appear to be present in all staff but was vital to his adjustment and safety in prison. A more

(b)(5)

Institution Response: 13. Sex Offense Risk Factors:

The Chief Psychologist is a member of the Executive Staff. The Chief Psychologist or her designee continues to be present at all Executive Staff meetings, Department Head meetings, and SHU meetings. During these meetings, the Chief Psychologist offers feedback regarding the treatment and management of sex offender inmates. Additionally, the Chief Psychologist continues to educate all staff during Introduction to Correctional Techniques (ICT) and Annual Training (AT) about the sex offender specific risk factors and suicidality.

Good morning: Same presentation today, but he said he thinks his memory for the incident (injury to his neck) may be impaired because of his sleep apnea. He is supposed to get his CPAP machine today. He is aware he will be returning to SHU, but said he is feeling unwell due to his inability to sleep and numbness in his arm. He requested to have one good night of sleep with his CPAP and will return to SHU with a cellmate tomorrow.(b)(7)(A) I told him he can stay down one more night to receive his CPAP and a good night's sleep, but that he would be returned to SHU tomorrow. It was explained that there is no mental health issues precluding him from returning to SHU tomorrow and that we could not house him in the SW/Hospital area because(b)(7)(A) or more comfortable for him.(b)(7)(A) He will remain on psychological observation today and will transition to the SHU tomorrow. AW Skipper-Scott,

Inmate Epstein seems psychologically stable.

He complained that his right arm was numb and hanging earlier. Nurse(b)(6); (b)(7)(C) saw him.

He again said his right arm still feels somewhat numb and he said he cannot make a fist with that hand. He also said he has numbness on his neck. I informed Nurse (b)(6); (b)(7)(C)

He stated the toilet in his cell was running for 45 minutes last night and he could not take the noise. He is going to try the toilet before going to legal today and if it does not shut off, he will be moved to another cell.

Thanks,

If you happen to get this tonight, maybe you can call me on my cell at 202-32(b)(6); (b)(7)(C) My boss may want to answer this reporter tonight, but before we send an answer perhaps like the one below we wanted to see for our own internal awareness what you may know about this if any of it is true in regard to Epstein.

My mobile Samsung is not always receiving emails and leaving work now, so my personal cell by calling the number above is best if you get this.

Thanks so much,

While I will probably reply to this reporter with something like my draft below which doesn't reveal much if anything, nonetheless we want to be sure we understand from you or the institution what if anything may have happened with inmate Epstein. Could you see if the institution can look into this and provide us with what they may know for our internal purposes (not for release to media)? We will reply to media inquiries about Epstein (not the institution) since stories about him are national news (unless we finalize an answer that we could give to the institution to use as well if media ask about this tomorrow).

His speech was logical and coherent, with no loosening of associations or tangential, circumstantial or irrelevant speech. Auditory and visual hallucinations were denied, and delusions were not elicited. He did not engage in any bizarre or inappropriate behavior. The determination of whether an inmate is competent to proceed with the disciplinary process is based on a clinical assessment of the inmate's (1) ability to understand the nature of the proceedings, and (2) their ability to assist in their own defense. Depending on the outcome of the assessment, one of three findings can be made: (1) the inmate is COMPETENT to proceed with the disciplinary process; (2) the inmate is NOT PRESENTLY COMPETENT but could be restored to competence with treatment; or (3) the inmate is NOT COMPETENT and is unlikely to become competent.

Recommendations Regarding Sanctions

In the case of inmate Epstein, after a review of available psychological and psychiatric records as well as information pertaining to the offense conduct, it is determined that this inmate is:

(X) COMPETENT to proceed with the disciplinary process.
( ) NOT PRESENTLY COMPETENT, but could become competent with treatment; it is recommended that the inmate for an updated competency assessment in 30 days.

Mr. Epstein arrived on July 8, 2019, and was seen by psychology services for an intake screening in SHU. He denied any psychology history or symptoms. Despite his risk factors of his sex offence charge, high profile case with media attention, and pretrial status housed in SHU, his protective factors outweighed his risk factors.
